V.M.J. SREEHARI, Dep. Secretary, Finance Department

File No. AFD 3 FFI-62. of 196 .

Mysore Government Secretariat

Serial No.

17/CF.

D.No: 1372 - D.O.No: FAD II/D/399 dt. 5.2.63 from A.G's office. 27.

Perusal is requested from Para 1/n.f. onwards. The result of action taken in remedying the defects in the transactions with the West Coast Paper Mills as pointed out by A.G. in the inspection report at PP 2-3/CF, is not forthcoming from the C.C.F. despite several reminders. 16/c The last D.O. letter of 22.1.63, issued under the signature of Secy. A+F, failed to elicit even an interim reply. 28.

Subd. for orders if the C.C.F. may be asked to discuss this case with the Secy. A+F, and if so a date convenient to the Secy. A+F.D. may be given. 29.

Int. 4.4.63. 2 8/4

D. No: 1507 FA + CCF's letter No: A2(B) 58-1647/58 dt. 28.3.64. 80

Audit objections to the transactions of Forest Dept with the West Coast Paper Mills may kindly be seen at PF 2+3/CF. The lapses pointed out are mainly due to the defects in the old agreement entered into 81.

Serial No.

into by the Co. with the Ex-Bombay Govt. The audit Dept. has also hinted at the liberal concessions enjoyed by the Co.

6&7 Govt. already thought of revising the concessions enjoyed by the Co. as per the agreement executed in 1955. The position of the case was considered in a meeting held in the chambers of Min (F+F) in 1962 and in Aug. 62 revised rates of bamboo, water etc were offered to the Co. calling upon them to accept them. But the Co. in their letters of 18.11.63 have declined to accept the revised rates and are opposed to the revision of the terms of the old agreement — Files Nos: AFD 48 FDP 62 and AFD 78 FDP 62 refer.

8 As regards the audit remarks, a suitable reply may be given to A.G. on the lines of the PWD. CCF's remarks in regard to the execution of agreements in respect of forest lands and recovery of water charges is not satisfactory. We may be asked to intimate the actual dates of execution of agree-

ments

Note.—Contn. Sheet

Under Secretary to Government
Agriculture & Forest Department

**ISSUED**
Date 20-2-1965.

Perusal is requested from para 121 NF.

---

126 As per Ex-Bombay Government Resolution dated 27-10-1956(P - 76 CF) a rate of Re.1/- per 10,000 Cft is to be charged for water drawn by the W.C.P. Mills. This rate is for ten years with effect from the date of the water is actually used for the manufacture of Pulp and Paper and a rate of Rs.2/- per 10,000 cft thereafter. The water rates charged to other Industries by the P.W.D. may kindly be seen at Flag 'A'.

127 The Mills went into production on 17-11-1958. So the rate of Re.1/- per 10,000 Cft of water will continue till Nov. 1968 and thereafter the rate of Rs.2/- per 10,000 cft will have to be charged. The said rate is levidble on the actual quantity of water drawn by the Mills. Since the Mills are deliberately refraining from putting water meters at their pumpsets, on the plea that the metres are not available, it is not possible to assess the actual quantity drawn by them. At present the mills are paying water charges on the quantity of 15 lakh gallons per day at Re.1/- per 10,000 cft, but their actual consumption is supposed to be of the order of 60 ~~,000 tons~~ Lakh Gallons per day and

Note.—Contn. Sheet

water rates.

File No. AFD 3 FF1-62 of 196.

Mysore Government Secretariat

more in as much as the production ~~of the Mills is as much as the production~~ of the mills is 80 tons of pulp per day and one ton of pulp requires about 60 thousnd tons of water on an average. When the C.F. Belgaum ordered recovery of water charges on the maximum quantity of 60 lakh gallons per day, as contemplated in the agreement executed by the Company, they refused ~~the~~ to pay water charges on this quantity and at the same time avoid putting up of metres which could help coming to the actual figures of consumption.

Serial No.

The C.C.F. suggests that the recovery of water charges may be effected @ Re.1/- per 10,000 cft or 60,000 gallons of water for each ton of paper or plup produced by the mills. 128.

This issue may be decided by convening a meeting in the Chambers of Minister for Forests and inviting the Secretaries, A&ED, F.D., P.W.D., C.C.F, C.F. Belgaum and the representatives of M/s W.C.P. Mills. 129.

Submitted for orders.

24.2.65. 24/2

Since the Meters have not been installed by the Company, it will not be possible to assess the actual Consumption of water and recover payment @ Re 1/- per 10,000 cft of water as envisaged in Bombay Govt. Resolution. So we will have to adopt the other alternative suggested by C.C.F. Vide x to charge the water rate at 60,000 gallons of water for each ton of pulp or bales produced by the Mills. The P.W.D & F.D 130.

In view of the fact that no water meters are fixed, the only course left to department in assessing the quantum of water utilised is by theoritical means as advised by the C.C.F. i.e. at the rate of 60,000 gallons of water for each ton of paper or pulp produced by the Mills and charge the mills at 1 Rupee per every 10,000 gallons of water i.e. Rs. 6/- per every ton of paper or pulp produced. (142)

If the Mill authorities feel that this rate is high it is for them to instal the

(S.Abdul Wajid),
U.S., F.D.,(W&S).
31/5

A&F Dept. )( 31/5

Ref: F.D's query at Para supra.

152.

The proposal is to charge the water rates @ Re.1/- per 10,000 Cft as per Ex-Bombay G.R. at page 76/Cf. Since the Company has not erected water meters at the pumping station, the proper assessment of water consumed for the manufacture of paper by the Mills is not possible. Based on the information furnished by the Mysore Paper Mills, the C.C.F. has suggested that in the absence of water meters, the consumption of water by the W.C.P. Mills may be calculated at 60thousand gallons of water for each ton paper/pulp produced by the Mills. Since the present prodductuon capacity of W.C.P. Mills is 60 tons of Paper/Pulp per day, the quantity of water consumed will be assessed at 60 x 60,000 = 36,00,000 Gallons of water per day. The water rate to be levied @ Re.1/- per 10,000 Gallons would be Rs.360/- per day( i.e., 36,00,000 ÷ 10,000).

153.

The case may be referred back to F.D. for concurrence to the proposal.

(From Para 121/n.f).

D.O.Letter No.A2(B)-58-1647/58 dated 4-7-1966 from the C.C.F. addressed to the Secretary, A & F.D(D.No. 3458/66).

pp 139-141 c.f.

Extract from the D.O.letter No.AA/R.IV/66-67/184 dated 20-7-1966 ( SD.301/FA/66).

(82)

Please see the report of the C.C.F. on pages 139-141 c.f. The C.C.F. has suggested that in view of the fact that both the agreement executed by the West Coast Paper Mills on 13-8-1955 and the Bombay Govt. resolution No.3745 dated 17-11-1950 are silent on the issue as to who should instal the meters to asses the quantity of water used by the Company, the Forst Department may agree to instal the meter and to collect hire charges, if necessary from the Co., on the lines adopted by the Electricity Board and Water Supply Departments in such cases. Pending installation of the meter by the Forest Department, the C.C.F. has suggested that the assessment of water consumption may be made on the basis of actual consumption of water for production of each ton of paper/ pulp, which it is reported, as arrived at the Mysore Paper Mills, Bhadravathi is 60,000 gallons of water or 10,000 cft of water per ton of paper/pulp produced. It is submitted in this connection that as per Bombay Govt. Resolution No.FND 2856-j. dated27-10-1956 the rate fixed to draw water from the Kalinadi River is Re.1/- per 10,000 cft. for a period of 10 years with effect from the date of water is actually used by the Company for the manufacture of Pulp and paper and Rs.2/- per 10,000 cft thereafter. This it may be seen, is without reference to the actual consumption of water per ton of paper/pulp produced in the factory but, is based on the minimum (15 lakhs gallons per day) and the maximum( 60 lakhs gallons per day ) which was allowed

pp 77-81 c.f.

p. 76 c.f.

to be drawn as per the agreement entered into by the Company in this behalf. As the West Coast Paper Mills have persistently refused either to instal the water meters or to be assessed for the maximum quantity of water allowed as per the agreement entered into viz 60 lakhs gallons per day, inspite of the fact that they are consuming 150 lakhs gallons daily for their mill and housing colony etc., the present proposal to charge at Re.1/- per 10,000 cft., or 60,000 gallons of water per ton of pulp/paper produced by the mill, has been put forward ~~for consideration~~ as a ~~viable~~ feasible proposition pending installation of meter by the Forest Department.

As W.C.P.Mills, Dandeli are paying water charges (183) on the basis of 15 lakhs gallons of water per day consumed by them, which is far below their normal consumption of 150 lakhs gallons of water per day as assessed by the Forest Department and also that the Company have refused to ~~accept~~ instal water meters at their pumpsets to assess the actual drawal of ~~xxx~~ water by them from the Kalinadi river and also have not accepted the decision held in the Chief Minister's Chambers on 24-7-1962 and 28-7-1962 communicated to them in Govt. letter No.AFD 48 FDP 62 dated 18th Aug.1962 to charge them at the normally accepted rates of drawing water from natural sources with certain concessions etc., it is suggested that the present proposal to fix the rate by co-relating the quantity of water consumed for the manufacture of paper/pulp with the quantity of paper/pulp produced by the factory may be considered and decided in a meeting attended by one of the representatives of the Company. The suggestion of the C.C.F. may

perhaps be accepted.

(194) If the above proposal of charging at the rate of Re.1/- per 10,000 cft., or 60,000 gallons of water per ton of paper/pulp produced by the Mill pending installation of meter by the Forest Department, is accepted, a reply to the A.G. regarding draft para " loss of Revenue on sale of water to M/S West Coast Paper Mills Ltd., Dandeli " proposed for inclusion in the Audit Report, 1967 may also be given.

For orders.

1/18

M. W. WINSTON,
Under Secretary to Government,
Agriculture and Forest Department.

Dy. Secy., A. & F.
No. 8507
10/8/66

There are 2 issues in this file. One is relating to the levy of water charges in respect of water drawn by the factory from the Kalinadhi river and the other in respect of installation of water meters to determine the consumption of water per day.

186. As regards the first issue, Government after careful consideration of all the aspects issued a letter dated 18th August 1962 -page 64 in file No.AFD 48 FDP 62 Flag 'R' (placed below) that the normal rate would be Rs.250/-per Million Cu.Ft. and that during the first five years a concessional rate of Rs.100/-per 10,00,000 Cft. would be charged (as an incentive to the Company). Govt. also decided that the water drawn would be calculated on the basis of 300 days per annum and on the basis of thepumping capacity indicated on the pumpsets installed in the factory premises.

Flag. 'R'

Govt. however recognised the fact that there would be always be a difference between the capacity indicated on the pumpsets and the water actually drawn by the pumps. Government therefore decided to give a remission of 20% on the total amount payable to Government on the basis of the capacity of the pump set installed in the factory premises. This decision has neither been been conceded by the company nor has it been enforced so far.

As regards the issue of installation of meters, later Govt. communicated a decision in letter No.AFD 27 FDP 60 dated 17-8-1962 at page 76 of the linked file that Government were agreeable to the proposal for the calculation of water drawn on the basis of readings by a meter(Venturi meter) provided such a meter is installed, maintained, periodically checked and calibrated at the cost of the company. It was also enjoined that these meters will be subject to periodical inspection by Govt. for the sake of ensuring accuracy. As it is obvious this decision has also not been implemented on the part of the Company authority nor has it been enforced by the Forest Department. 187 Flag. 'W'

This question has been pending for quite a long time and it is necessary that this should be discussed at an urgent meeting of the representatives of the Company by the Secretary, A.&F., to finalise the same. The Secretary C.&.I and the CCF will also be invited to attend this meeting. Later if need be, a further meeting 188.

could be held in the chambers of the Minister for Forests for taking a high level decision. It is quite essential to come to an agreement of these issues as the present agreement and the resolution of the erstwhile Bombay Government are silent in this matter.

Subject: West Coast Paper Mills File No.

AFD 3 FF1-62

WD 01060—GPB—8,00,000 13-12-65

(211) A meeting was held on 14-9-66 when the representatives of the West Coast Paper Mills (Sri Somani and his officers) and the C.C.F. and other officers of the Forest Dept. were also present when the matter was fully discussed. The issue of the rate of water supply has been there for a long time and has to be decided urgently. The Accountant General also has ~~included~~ communicated a draft para "Loss of revenue on sale of water to West Coast Paper Mills, Dandeli" proposed for inclusion in the Audit Report 1967. For some reason or other the matter could not be finalised and a decision taken for a long time. The facts of the case are as follows:-

(212) The company was ~~to~~ to be supplied with water at the rate of Re.1.00 per 10,000 Cft. and according to the agreement they were to have put up a water metre. So far they have not done so, as the necessary water metres of the capacity required are said to be not available at present in India. In the absence of the metres it had been assumed that the consumption is calculated at 15 lakhs gallons a day for 365 days based on the brochure circulated by the Company at the time of inauguration and bills are being preferred at the rate of Rs.9,125/- per annum. It was, however, noticed that the consumption comes to 1 Crore 50 lakhs gallons per day. Later on this ~~was~~ was said to have been done due to mistake and the factory has been insisting that it is only 15 lakh gallons per day. According to Government Order of Bombay dated 27-10-56, the Mills were to get water at the rate of Re.1 per 10,000 Cft. for a period of 10 years from the date the water is actually used ~~from~~ for the

manufacture of pulp and paper and Rs.2 per Cft. thereafter. The Company has objected to instal the water metre inspite of notices since 1950 on one plea or another. It is now estimated the Company is actually drawing about 60 lakh gallons per day as against their claim of 15 lakh gallons per day. In view of the difficulty of getting the water metre, it was thought that a working arrangement could be arrived at to get a more realistic estimated amount the company had to pay till a metre could be obtained and installed. The West Coast Paper Mills have persistently refused either to instal the water metre or to be assessed for the maximum quantity of water allowed as per the agreement entered into. Therefore the object of the present meeting was to arrive at a working method for calculating the charges to be paid by the Company to the Government ~~the~~ for the water supply. It was explained by the C.C.F. that the water consumption by the Company was certainly far more than 15 lakh gallons and the calculations may be made of the quantity of water used approximately either on the basis of the Horse Power and capacity of the pump installed and number of working hours or on the basis of the estimated consumption of water necessary for producing a particular quantity of pulp. From the information available, he pointed out that the water required for one tonne of bleached pulp is approximately 60,000 gallons. The representatives of the Company were asked whether they would accept this basis for the consumption. Mr. Somali Somani wanted one month's time to consult the technical personnel and to give his views in the matter. It

WD 01050—GPB—8,00,000 18-12-65

was impressed on him that we had to take an early decision and the matter will have to be taken up. In any case we may wait for one month i.e. till the middle of October 1966 to take a final decision. In the meanwhile, in the absence of any other criteria we may accept the basis proposed by the C.C.F. for calculating the water consumption at approximately 60,000 gallons per tonne of bleached pulp or 10,000 Cft. of water per tonne of bleached pulp. As Mr. Somani was not willing to ~~eimmit~~ commit himself to any arrangement and it appears to me that they would try to avoid the issue as long as possible. The only way is to issue to the company a notice that it is proposed to levy water rate at the rate of Re.1 per 10,000 Cft., the quantity of consumption being assessed in the absence of a water metre at 60,000 gallons per tonne of bleached pulp and this would be effected from the beginning. The Company may be asked to file their objections, if any, within one month's time limit they had stipulated. On considering their objections a final order could be passed.

246) Pl. spk 19.6.67

(247.) Reference is invited to my notes in paras 211 and 212/mf on which the Minister had agreed in para 213/mf to the action proposed at 'A' & 'B'.. However, on my note in para 221/mf seeking approval for action being taken as indicated in para 212'B', Minister had suggested this may be discussed at a meeting. The representative of the West Coast Paper Mills were not present at the meeting called on 24-12-66 and the Minister had ordered that this may be taken up some time later. It was again proposed for being discussed with the Chief Minister who had fixed up a meeting to consider several things regarding West Coast Paper Mills. I learnt that this subject of water rate was not discussed at the meeting.

(248.) The matter has been pending for a very long time and the West Coast Paper Mills has been avoiding the issue on one ground or other. Delay in this matter may be raised by the A.G. and go to P.A.C. I feel that this matter should be decided immediately and I propose that the action indicated in my note in para 212 'B'/mf be taken. The F.D. will be consulted before the issue of final orders that the water rate will be charged at rupee one per 10,000 Cft. and quantity of consumption being assessed in the absence of metres at 60,000 gallons per ton of bleached pulp and the Chief Conservator of Forests will be asked to calculate the amount and enforce recovery against the company. ISSUED
Dated 20/1/68

Public Accounts Committee ~~while~~ today discussing the Appropriation and Finance Accounts for the year 1964-65 and 1965-66, pertaining to the Forest Department and also para 37 under Loss of Revenue - Water Supply to Messrs West Coast Paper Mills, Dandeli, enquired whether water supply to the paper mills has been charged, if so, at what rate? They also enquired, whether water meter has been installed and reasons for not installing the same as the case is pending since 1960. They incidentally enquired why the matter was not taken up and finalised for the last 7 years. When it was indicated that a meeting notice has been issued for holding discussions on 27-1-1968, the P.A.C advised to send a copy of the proceeding of the meeting. 267.

P.A.C. vehemently observed to give reasons why steps were not taken to stop water to the Mills in case the Mill authorities failed to comply with the terms for payment of water charges on the basis of production of paper or by installation of water meter, and also for contravening the agreement entered into with Government of Bombay that the Company cannot use more than 60 lakhs of gallons per day. (273)

ISSUED
Dated 29/1/68

M. C. S.

*Subject:* Transactions of the Forest Department with the West Coast Paper Mills, Dandeli - Charging of water rates and installation of meters etc.

*File No.* AFR 3 FFI 62.

(274) Discussions regarding the installation of water meters and the charging of water rates for the water drawn from the Kalinadi River by the West Coast Paper Mills, Dandeli, were held in the Chambers of the Minister for Forests & Revenue on 27th January 1968, in the absence of the Representative of the West Coast Paper Mills, Dandeli pleading inability to attend the meeting and asking for postponement of the ~~six~~ discussions by two months. The following were present:

1. Secretary, P.W.D.
2. D.S. A & F.D.
3. D.S. Finance Department.
4. Sri G.M.Shankaraiah, T.A. to C.C.F.
5. U.S. A & F.D. (Forests)

(275) The Deputy Secretary, A & F.Department at the out - set explained in brief the discussions that the Govt. had with the P.A.C. and also the necessity of taking an early decision in view of matter figuring in the P.A.C. report. The P.W.D. Secretary, then suggested that as the matter is pending since many years the Company may be asked to install the meter to assess the quantity of water drawn by them and also ~~of~~ Bombay the feasibility of raising the water rates for the W.C.P.Mills, Dandeli, on the lines of the other industrial concerns who have been given water facilities by Govt. Sri G.M.Shankaraiah, T.A. to C.C.F. then brought to the notice of the meeting that as there was no provision in the agreement executed by the Company with the then Govt.of Bombay, it may not be legally feasible to request the Company to install the water meters. The D.S. A & F.D. then indicated that the raising of the water rates from what has been fixed by the Govt. of Bombay as ~~the~~ per

WD 01050—GPB—8,00,000 13-12-65

the terms of agreement, may not also be feasible and suggested that the water rates may be charged at the rates fixed by the Govt.of Bombay depending upon the actual consumption of water per ton of pulp/paper produced by the Company as in the case of other Companies ie., at the rate of 10,000 Cft or 60,000 gallons of water required for producing one ton of pulp/paper in the Mysore Paper Mills, Bhadravathi, may be considered pending installation of water meters, either by Govt. or by the Company.

It was suggested that a copy of the agreement entered into by the Company with the Government of Bombay may be obtained and given to the Secretary, P.W.D. to enable him to see that further action could be taken by Government. (276)

It was decided that the water already consumed on the basis of the production of pulp may be charged and the arrears in that behalf recovered from the Company. (277)

L.D. (Opn. II) 1168 Date 4.7.68

H303/FM/68

As a matter of fact, in the agreement executed by the company specific does not contain any mention of the installation of

M. G. S.

**Subject:** West Coast Paper Mills, Dandeli — Charging of water rates and installation of water meters etc.

**File No.** AF-D 3 FF 1-62. 80

water meters or of the correct assessment of water drawn by the mills from the Kalinadi River. However, as the mills have been found to be drawing more than the permissible limits of 60 lakhs gallons of water as indicated in clause 4 (c) of the agreement (as is evident from the production figures of Paper/Pulp on P. 275 cf) and also that they have been consistently evading the issue of charging the water drawn by them all these years, on some rational basis, the contingency of issuing a notice as proposed in pursuance of the decision of the meeting held on 26-4-68, has now arisen.

With this information, the file may now be sent to Law Deptt. with a request kindly to scrutinise the notice on pp 281-287 and return.

DEPARTMENT OF LAW AND
PARLIAMENTARY AFFAIRS

(339)

The Administrative Department has requested this Department to peruse the notice to M/s. West Coast Paper Mills, with reference to the agreement dated 13-8-1955 and offer its remarks, if any, for the issue of the same.

(340)

The Mills are required to pay water charges at the rate of 60,000 gallons or 10,000 cubic feet of water per ton of pulp/paper. The relevant clauses in the agreement do not contain an express covenant that the water drawn by the Mills has to be estimated on the basis of pulp produced much less at the rate of 60,000 gallons of water per ton of pulp and such an agreement cannot also be implied on the ground that it would be convenient way of assessing the water consumption. Subsequent to the date of agreement, the Mills have not committed either orally or in writing to assess the water charges on the basis of production of pulp - paper,

in the Mills. In the circumstances, it is necessary to accurately estimate the water consumed by the paper mills. In the absence of water meter, any other scientific method which will give a fairly accurate estimate of the water used can be adopted. On the basis of water consumed by other mills, it is stated, that 60,000 gallons or 10,000 cubic feet of water is required for producing every ton of pulp/paper. The extracts from "Paper and Pulp Manufacture" Volume 4 (MC Gramhill - page 617) made available at page 74 indicate that no two mills are alike with respect to their operation and that there are difficulties in assessing the correct quantity of water used. It is for the consideration of the Administrative Secretariat whether it is not possible to instal water meters temporarily to assess the water required for production of every ton of pulp/paper. If for any reason, this is not possible, it is to be considered whether it would not be possible to accurately estimate the water used by a technical man by inspection of the machinery and the method adopted for producing pulp/paper. If the Administrative Secretariat is able to establish that 60,000 gallons or 10,000 cubic feet of

WD 01050—GPB—8,00,000 13-12-65

of water is necessary for production of one ton of paper/pulp then, the Mills would be bound legally to pay water charges at the rate now demanded. It is better, if in the notice, full details of the amount due are given after making calculations on the basis now proposed.

The second demand in the notice relates to the Mills' installing water meters within a period of three months for correctly assessing the water drawn by them from Kali-Nadi river. The agreement dated 13-8-1955 does not provide for Mills installing the water meters. The unilateral decision taken on 26-4-1968 is not binding on the Mills. As per clause 4(c) of the agreement, the Government is responsible to supply water upto 60 lakhs gallons per day as the maximum and the remaining water can be utilised by Government for other purposes. If the Government wants to restrict the water supply to the mills to the maximum mentioned in clause 4(c) of the agreement, it becomes the responsibility of the State to instal water meters. In other words, as the terms of the agreement

(341)

1376/LawII/68

4561/FA/68

27831

agreement stands, it would not be tenable for the Government to insist that the Mills should instal the water meters.

No.1376/L.II/68
No.447/JLS/1968

Agriculture & Forest Dept.

7/8/68

(342) Please see the opinion of the Law Deptt. in paras 339-341 supra.

It may be pointed out in this connection that what has been proposed by way of assessing the water drawn by the W.C.P. Mills, Dandeli for production purposes at the rate of 60,000 gallons or 10,000 cft. of water per ton of Paper/Pulp produced in the Mill, is only a temporary measure adopted in the absence of the installation of water meters, and that such an arrangement cannot be scientific in the sense and to the extent we desire. However, in the

WD 01050—GPB—8,00,000 13-12-65

circumstances that the installation of the water meters either by Govt. or by the Mills is not feasible immediately, the data obtaining on the production of paper/pulp in the Mysore Paper Mills, has been recommended by the CEF for consideration. The same has been accepted in the meeting on 26-4-1966 as the only feasible basis to assess the water requirements of the W.C.P. Mills and of recovery of charges therein etc., pending installation of water meters which could only ensure scientific assessment of water consumption in this behalf in due course.

On the reports of the CEF at 5/6.2.65 (343) and 4-7-1966 are quite specific on the consumption of water for Paper/Pulp production in the Mysore Paper Mills, Bhadravathi, which put the figure at 60,000 gallons of water per ton etc. and Law Deptt. have also opined that the same could be adopted (if definitely established) for the purpose of water charges in para 340 supra. the details regarding the amount due may be called for from the CEF in the first instance. Draft letter put up to the CEF accordingly to for approval.

M. G. S.

**Subject:** West Coast Paper Mills, Dandeli – Charging of water rates and installation of water meters.

Extract:

2. Transactions with the West Coast Paper Mills, Dandeli.

The following defects and omissions were noticed in regard to the dealings of the department with the ~~Ess~~ West Coast Paper Mills.

(i) Lease of lands:- Lands have been leased out to the Paper Mills from time to time as noted below:-

| Sl. No. | Govt. Order No. & Date. | Extent of land leased. | Date of handing over to the mill |
|---|---|---|---|
| 1. | FMD/2855/7731(a)-J of 27-1-56 (Govt. of Bombay) | 200 acres. | 29-6-1956. |
| 2. | AFD/6/FAC/57 dt. 20-11-1958. | 40 " | 1-5-1960 |
| 3. | AFD/3/FAC/57 dt. 6-4-57 | 14-30 " | 28-3-1957 |
| 4. | AFD/38/DAF/57 dt. 21-5-1957 | 15 " | 2-4-1957. |

While the necessary agreement bond has been got executed in the first case, it is pointed out that the same have not been got executed in the last three cases although periods of 3 to 4½ years have elapsed from the date of Govt. Order. It is also interesting to note that the lands have been leased out even prior to the date of the Government Order in the last two cases not to speak of the non execution of the agreement bonds, even at this distance of time.

(ii) Recovery of Royalties:

(a) According to Para 5 of the Government of Bombay Resolution No. 3745 of 17-11-1950 passing orders on the report of the Committee appointed in this connection, royalty should be charged at the rate of Rs.3 per ton of Unbleached pulp and Rs.3-2-0 per ton of bleached pulp; this rate should be fixed initially for a period of 5 years, to be reviewed every ten years thereafter. But Clause (1) of the agreement executed on 13-8-1955, actually stipulated the payment of royalty at a concessional rate of Rs.3-2-0 per ton of Paper manufactured at the Company's factory, provided that any enhancement in the rate at each revision shall not exceed 25% of the basic rate. Orders of Government either for the recovery of royalty on the quantity of paper manufactured or for the proviso in the agreement in regard to the revision of rates were not available. In the absence of such orders, the agreement entered into is defective.

(b) Even according to the agreement, the department has to calculate royalty on paper manufactured at its first weighment stage. It is gathered that there is no representative of the Department in the mill area to record the weighments at this stage. It is not clear how the department can correctly assess the royalty to be recovered in these circumstances.

(c) It may also be explained how, in view of the fact that foreign pulp is also being used by the company, the department is enabled to know the paper produced from the local pulp and assess the revalty, or whether it is recovered on paper produced even with foreign pulp.

(d) The agreement in its condition (iii) stipulated the date of commencement of production as on or before 1-6-58 and as per condition (i) the company had to pay a minimum annual royalty of Rs.36,000/- or Rs.30,000/- to end of 31-3-1959. But on a representation by the Company that the work commenced only from 1-11-1959 (Production started in fact on 17-11-1958 with foreign pulp) ord[illegible] G.O. have been passed [illegible]

accepting the date of commencement as 1-1-1959 and a sum of Rs.9,000/- was recovered as royalty for the year 1958-59. It is also a point of interest to note that the extraction of air dry bamboos in 1958-59 was about 40,000 tons (as gathered from the files) which at the rate of Re.1/- per ton should yield a royalty of Rs.40,000 for the year as against Rs.9,000 recovered. The question may be examined and whether it does not call for further recoveries clarified.

(iii) Water facilities:

Clause 4(d) of the Government of Bombay Resolution (referred to above) No. 3745 of 17-11-1950 stipulated that the maximum quantity of water to be drawn ~~per day~~ should not exceed 10 lakh gallons per day. It would appear from the letter No. 16/5/III/Pt/1606 of 59-60 dated 21-8-1959 addressed by the D.F.O. to the Conservator of Forests, Belgaum that as per clause 4(c) of the agreement the maximum quantity of water to be drawn should not exceed 60 lakhs gallons per day. Here again no orders of Government enchancing the limit of 10 lakhs to 60 lakhs of gallons per day were available. It is not clear, therefore, whether the agreement was defective in this aspect also. This requires examination and intimation of the result of thereof.

(iv) Recovery of Water charges:

It is observed that the Company was addressed as far back as 9-3-1959 advising them to set up a water meter to determine the intake of water to assess the charges leviable but the company have been avioding the fixing up of meters as per D.F.O.'s letter No. IND/WCP/344 of 60-61 dated 6-10-6 to the Conservator of Forests, Belgaum. The reason for the reluctance on the part of the company to install meters (although at least six firms have come forward to supply the as per enquiries by the D.F.O.) is quite obvious.

It is not clear, whether, in the circumstances the suggestion of the D.F.O. to have the Water consumption reported by a Hydraulic Engineer of the P.W.D. by actual te and reference to the log books of the factory cannot be accepted so that a fair estimate of the consumption could worked out pending the installation of meter.

In the absence of any data, the consumption i calculated at 15 lakhs gallons a day for 365 days based on brochure circulated by the Company at the time of inaugur and bills preferred at Rs.9,125 per annum. It is, however, brought to notice by the D.F.O. in his letter No. IND/WCP/ of 1960-61 dated 3-10-1960 that according to a Pamphlet is by the Company more than 1 crore and 50 lakh gallons per is drawn. If this is the position the charges would amo to more than Rs. 91,250 per annum and in fact, at one sta bills had been preferred accordingly.

The question has not been finally decided e three years after the starting of the production namely 17-11-58 and in the meantime, the company is also putti forth its own views and objections in the matter. Thi a matter requiring urgent attention and is specially bi to notice.

(v) From the foregoing it will be seen that the e transactions relating to the West Coast Paper Mills re to be throughly reviewed and the several points referr above got regularised at an early date.

Extract.

Transactions with the West Coast Paper Mills, Dandeli.

The following defects and omissions were noticed in regard to the dealings of the department with the West Coast Paper Mills.

(i) Lease of lands:- Lands have been leased out to the paper Mills from time to time as noted below:-

| Sl.No. | Govt.Order No.& Date. | Extent of land leased. | Date of handing over to the mills. |
|---|---|---|---|
| | FND/2855/7731(a)-J of 27-1-56 (Govt.of Bombay). | 200 acres. | 29-6-1956. |
| 2. | AFD/6/FAC/57 dt.20-11-1958. | 40 acres. | 1-5-1960. |
| 3. | AFD/3/FAC/57 dt.6-4-57. | 14-30 acres. | 28-3-1957. |
| 4. | AFD/38/DAR/57 dt.21-5-1957. | 15 acres. | 2-4-1957. |

While the necessary agreement bond has been got executed in the first case, it is pointed out that the same have not been got executed in the last three cases although period of 3 to 4½ years have elapsed from the date of Government Order. It is also interesting to note that the lands have been leased out even prior to the date of the Government Order in the last two cases not to speak of the non execution of the agreement bonds, even at this distance of time.

(ii) Recovery of Royalties:-

(a) According to para 5 of the Government of Bombay Resolution No.3745 of 17-11-1950 passing orders on the report of the Committee appointed in this connection, royalty should be charged at the rate of Rs.3/- per ton of Unbleached pulp and Rs.3-2-0 per ton of bleached pulp; this rate should be fixed initially for a period of 5 years, to be reviewed every ten years thereafter. But Clause (1) of the agreement executed on 13-8-1955, actually stipulated the payment of royalty at a concessional rate of Rs.3-2-0 per ton of Paper manufactured at the Company's factory, provided that any enhancement in the rate at each revision shall not exceed 25% of the basic rate. Orders of Government either for the recovery of royalty on the quantity of paper manufactured or for the proviso in the agreement in regard to the revision of rates were not available. In the absence of such orders, the agreement entered into is defective.

(b) Even according to the agreement, the department has to calculate royalty on paper manufactured at its first weighment stage. It is gathered that there is no representative of the Department in the mill area to record the weighments at this stage. It is not clear how the department can correctly assess the royalty to be recovered in these circumstances.

(c) It may also be explained how, in view of the fact that foreign pulp is also being used by the company, the department is enabled to know the paper produced from the local pulp and assess the royalty, or whether it is recovered on paper produced even with foreign pulp.

(d) The agreement in its condition (iii) stipulated the date of commencement of production as 'on or before 1-6-58' and as per condition (i) the company had to pay a minimum annual royalty of Rs.36,000/- or Rs.30,000/- to end of 31-3-1959. But on a representation by the Company that the work commenced only from 1-11-1959 (Production started in fact on 17-11-1958 with foreign pulp) orders of Government have been passed in G.O.No. AFD 58 FAC 59, dt.6-1-60, accepting the date of commencement as 1-11-1959 and a sum of Rs.9,000/- was recovered as royalty for the year 1958-59. It is also a point of interest to note that the extraction of air dry bamboos in 1958-59 was about 40,000 tons (as gathered from the files) which at the rate of Re.1/- per ton should yield a royalty of Rs.40,000/- for the year as against

.. 2.

99 4(4)

Rs.9,000/- recovered. The question may be examined and whether it does not call for further recoveries clarified.

(iii) Water facilities:-

Clause 4(d) of the Government of Bombay Resolution (referred to above) no.3745 of 17-11-1950 stipulated that the maximum quantity of water to be drawn should not excees 10 lakhs gallons per day. It would appear from the letter No.16/5/III/Pt/1606 of 59-60 dated 21-8-1959 addressed by the D.F.O. to the Conservator of Forests, Belgaum that as per clause 4(c) of the agreement the maximum quantity of water to be drawn should not exceed 60 lakhs gallons per day. Here again no orders of Government enhancing the limit of 10 lakhs ~~ga~~ to 60 lakhs of gallons per day were available. It is not clear, therefore, whether the agreement was defective in this aspect also. This requires examination and intimation of the result thereof.

(iv) Recovery of Water charges:-

It is observed that the Company was addressed as far back as 9-3-1959 advising them to set up a water meter to determine the intake of water to assess the charges leviable but the company have been avoiding the fixing up of meters as per D.F.O's letter No.IND/WCP/344 of 60-61 dated 6-10-61 to the Conservator of Forests, Belgaum. The reason for the reluctance on the part of the company to install meters (although at lease six firms have come forward to supply them as per enquiries by the D.F.O.) is quite obvious.

It is not clear, whether, in the circumstances, the suggestion of the D.F.O. to have the Water consumption reported by a Hydraulic Engineer of the P.W.D. by actual tests and reference to log books of the factory cannot be accepted so that a fair estimate of the consumption could be worked out pending the installation of meter.

In the absence of any data, the consumption is calculated at 15 lakhs gallons a day for 365 days based on the brochure circulated by the Company at the time of inauguration and bills preferred at Rs.9,125 per annum. It is, however brought to notice by the D.F.O. in his letter No.IND/WCP/344 of 1960-61 dated 3-10-196( that according to a Pamphlet issued by the Company more than 1 crore and 50 lakhs gallons per day is drawn. If this is the position the charges would amount to more than Rs.91,250/- per annum and in fact, at one stage, bills had been preferred accordingly.

The question has not been finally decided even three years after the starting of the production namely 17-11-58 and in the meantime, the company is also putting forth its own views and objections in the matter. This is a matter requiring urgent attention and is specially brought to notice.

(v) From the foregoing it will be seen that the entire transactions relating to the West Coast Paper Mills require to be throughly reviewed and the several points referred to above got regularised at an early date.

141 42

No.A2(B)58-1647/58 CHIEF CONSERVATOR'S OFFICE,
Bangalore, dated 28 March 1964.

Immediate

To
The Secretary to Government,
Agriculture and Forest Department,
Bangalore.

Sir,

Sub:- Transactions of the West Coast Paper Mills Ltd., Dandeli. 41/c

Ref:- Your No.AFD 3 FFI 62 dated 12-3-1964.
2. This office D.O. letter of even No. dated 20/21-3-1964. 42/c F.

I furnish hereunder my remarks on the several points raised by the Accountant General:

F 19

(1) Lease of Lands: The Conservator of Forests, Belgaum Circle has been requested to get the necessary agreements executed by the Mills without further delay, after taking necessary safeguards and necessary deposits. The annual rental of Rs.80/- per acre per annum is being recovered from the Mills in respect of these lands from the date of release to the Mills.

(ii) Recovery of royalty:- (a) The agreement entered into by the Government of Bombay on 13-8-1955 is binding on the successor Government of Mysore. According to this, the royalty of Rs.3-2-0 per ton is recoverable on each ton of air dry pulp produced by the Mills. This date of production had been specified in the agreement as 1-6-1958 but Government of Mysore on a further appeal by the Mills, ordered that the date for the commencement of recovery of royalty be fixed as 1-1-1959, vide Government Order No. AFD 58 FAC 59 dated 6-1-1960. According to Clause (1) read with the Clause 9(iii) of the agreement, the revision of royalty has become due for enhancement (upto 25%) from 1-1-1964. Government have been moved to issue necessary orders vide this office letter of even No. dated 2/9-1-1964 and subsequent reminder dated 2-3-1964.

(b) Paper produced each day is not actually weighed. As and when paper is produced, the samples are weighted at the laboratory at regular intervals. On the bundles which go out of the factory, the weight is noted by the Central Excise Staff who are there throughout the working hours. Arrangements are also made to obtain monthly removals of paper by the Excise authorities and these figures are verified with the return given by the Factory and the royalty is recovered on the higher quantity shown in the returns. By this arrangements, the pay of the staff that would have been required to be sent to the Mills is saved and even if it is maintained at the expense of Government, it will not help since, as above said, all the paper produced in the Mills is not actually weighed.

(c) As per terms of the agreement, the Mills are not precluded from using foreign pulp for producing paper. The agreement does not also provide for recovery of royalty on paper produced out of foreign pulp. In fact the Mills commenced working with foreign (imported) pulp with effect from 17-11-1958. This matter was referred to Government and Government said in their letter No. AFD 26 FFI 59 dated 12-9-1959 that no royalty on paper produced out of foreign pulp need be recovered.

(d) Government have, in their Order No. AFD 58 FAC 59 dated 6-1-1960 ordered that the royalty should be recovered from the Mills on the pulp produced by them from 1-1-59. I have no

p.t.o.

44)

142

other remarks to offer ( The Mills started functioning with foreign pulp and the date of recovery of royalty is fixed as 1-1-1959) There was no other go but to recovery the minimum royalty of Rs.9,000/- for each quarter ending 31-3-59 since the agreement does not provide for the recovery of royalty on foreign pulp utilised. So long as the recovery of royalty on the production of pulp is there, it will not be possible to assess the quantity of pulp produced. The Government may reexamine this issue and take suchsteps as would make the Mills agree for the payment of or royalty on Bamboo even if it be at Rs. 1.25 per ton, if not more, taking it for granted that 2½ tons of Bamboo yield one ton of air dry pulp.

(iii) & (iv) Water facilities and recovery of water: Charges:

As per Bombay Government Resolution No. FND 2856 J dated 27-10-1956, water charges are to be recovered from the Mills, @ Rs.1.00 per 10000 Cft. of water for a period of 10 years from the date water is actually used for the manufacture of pulp and paper and @ Rs. 2/- per 10000 Cft. thereafter. Since the Company has not yet installed water-meter to its water pumping Station, the quantity of water drawn and utilised by the Company for the above purpose cannot be actually assessed. Hence as provided in clause 4(c) of the agreement executed by the Company., it is supposed that the Company draws water to the maximum extent of 60 lakhs gallons per day. Correct recovery of water charges only be effected after water meters are installed by the Company. This question was again taken up by Government vide correspondence resting with their Nos. AFD 48 FDP 62 dated 18-8-1962 and 21-1-1963. The terms were based on the discussions held at Government when one of the Directors of the Mills were present. Unless and until the existing terms of agreement are got rectified.

Yours faithfully,

CHIEF CONSERVATOR OF FORESTS.

.DVI.

143 45

NO: AFD 3 FFI-62 Dt.

To

The A. G.

Subject:- Transactions of the Forest Dept with the West Coast Paper Mills Ltd, Dandeli.

Ref. your letter No: FAD II-LD/ 349 dated 5. 1. 1962..

I am directed to offer remarks on the paras of the audit report, enclosed with the letter under reference, as follows:—

i) Lease of lands:— The C. F. Belgaum has been asked to get the necessary agreements executed by the Mills without further delay, after taking necessary safeguards & deposit. The annual rental of Rs. 80/- per acre per annum is being recovered from the Mills, from the dates lands were released.

ii) Recovery of royalty:

(a) The agreement entered into by the Govt. of Bombay on 13. 8. 19[illegible] is binding on the Successor Govt. of Mysore. According to the agreement the royalty of Rs. 3-2-0 per ton air dry pulp is recoverable from Mills, and this is being done.

ISSUED
Date 9.4.1964.

rate of royalty has been increased by 25% from 1.1.1964.

(b) Paper produced each day is not actually weighed. As and when paper is produced, the Samples are weighed at the laboratory at regular intervals. On the bundles which go out of the factory, the weight is noted by the Central Excise Staff who are there throughout the working hours. Arrangements are made to obtain monthly removals of Paper from the Excise authorities and these figures are verified with the returns given by the Factory and the royalty is accounted on the higher quantity shown in the returns. By this arrangement the pay of the staff that would have been required for the purpose is saved; and even if the staff is maintained at the expense of Govt., it will not help, since, as stated above, all the paper produced in the Mills is not actually weighed.

(c) As for terms of the agreement - the Mills are not precluded from using foreign pulp for producing paper. The agreement does not also provide for recovery of royalty on paper produced out of foreign pulp. However, as things stand, the Mills used foreign (imported) pulp only once, when they started their factory from 17.11.1958. The Mills went into production using bamboo

of the Forest Dept. from 1.1.1959 and from this day, the royalty is being recovered.

(d) As explained above, the Factory went into production with the bamboo of the Forest Dept w.e.f. 1.1.59, although they used imported pulp for producing paper from 17.11.1958. The Forest Dept had no other go but to recover the minimum royalty of Rs. 4,000/- for each quarter ending 31.3.1959. There are no doubt accrued losses on the part of Forest Dept but they are attributable to the defects in the Agreement.

(iii) & (iv) Water facilities & recovery of water charges:

As per Bombay Govt. Resolution No: FRD 2856 J dated 27.10.1956, water charges are to be recovered from the Mills @ Re 1-00 per 10,000 Cft of water for a period of 10 years from the date water is actually used for the manufacture of Pulp & Paper and @ Rs. 2-00 per 10,000 Cft thereafter. Since the Co. has not yet installed water meters to its water pumping Stations, the quantity of water drawn & utilised by the Co. cannot be actually assessed. Hence as provided in clause 4(c) of the agreement executed by the Co., it is supposed that the Co. draws water to the maximum extent of 60 lakhs gallons a day.

Long back it was felt that the old agreement executed in this behalf is defective and that the Co. is enjoying the concession which are too ~~generous~~ liberal. Revised terms + conditions for the royalty on teakwood, water charges + other forest concessions were offered to the Co as far back as Sep. 1962, and ~~but~~ ~~the Co. has not~~ they were called upon to accept them. But the Co. has declined to accept the new terms and they were opposed to the revision of the terms of the old agreement. ~~Future course of action is under consideration of Govt.~~

GOVERNMENT OF MYSORE

No. AFD 3 FFI 62

MYSORE GOVERNMENT SECRETARIAT,
VIDHANA SOUDHA,

*Dated, Bangalore,* 9-4- 1964.

FROM

The *Secretary to the Government of Mysore,*
Agriculture and Forest Department.

To

The Accountant General,
Mysore, Bangalore.

Sir,

Sub: Transactions of the Forest Department with the West Coast Paper Mills Ltd., Dandeli.

Ref: Your letter No.FADII-LD/399 dated 5-1-1962.

I am directed to offer remarks on the paras of the audit report, enclosed with the letter under reference, as follows:-

i) Lease of Lands: The Conservator of Forests Belgaum has been asked to get the necessary agreements executed by the Mills without further delay, after taking necessary safeguards and deposits. The annual rental of Rs.80/- per acre per annum is being recovered from the Mills, from the dates the lands were released.

ii) Recovery of royalty:

(a) The agreement entered into by the Government of Bombay on 13-8-1955 is binding on the successor Government of Mysore. According to the agreement, the royalty of Rs.3.2.0 per ton of air dry pulp is recoverable from the Mills, and this is being done. The rate of royalty has been increased by 25% from 1-1-1964.

(b) Paper produced each day is not actually weighed. As and when paper is produced, the samples are weighed at the laboratory at regular intervals. On the bundles which go out of the factory, the weight is noted by the Central Excise Staff who are there throughout the working hours. Arrangements are made to obtain monthly removals of paper from the Excise authorities and those figures are varified with the return given by the Factory and the royalty is recovered on the higher quantity shown in the returns. By this arrangement the pay of the staff that would have been required for the purpose is saved; and even if the staff is maintained at the expense of Government, it will not help, since, as stated above, all the paper produced in the Mills is not actually weighed.

(c) As per terms of the agreement the Mills are not precluded from using foreign pulp for producing paper. The agreement does not also provide for recovery of royalty on paper produced out of foreign pulp. However, as things stand, the Mills used foreign(imported) pulp only once, when they started their factory from 17-11-1958.

P.T.O.

150 = 52

The Mills went into production using bamboo of the Forest Department from 1-1-1959 and from this day, the royalty is being recovered.

(d) As explained above, the factory went into production with the bamboo of the Forest Department with effect from 1-1-1959, although they used imported pulp for producing paper from 17-11-1958. The Forest Department had no other go but to recover the minimum royalty of Rs.9,000/- for the quarter ending 31-3-1959. There are, no doubt lapses on the part of Forest Department but they are attributable to the defects in the agreements.

iii) & iv) Water facilities and recovery of water charges:

As per Bombay Government Resolution No. FND 2856 J dated 27-10-1956, water charges are to be recovered from the Mills @ Re.1.00 per 10,000 Cft of water for a period of 10 years from the date water is actually used for the manufacture of Pulp and Paper and @ Rs.2.00 per 10,000 Cft there-after. Since the Company has not yet installed water-meter to its water pumping station, the quantity of water drawn and utilised by the Company cannot be actually assessed. Hence as provided in clause 4(c) of the agreement executed by the Company, it is supposed that the Company draws water to the maximum extent of 60 lakhs galls a day.

Long back it was felt that the old agreement executed in this behalf is defective and that the Company is enjoying the concession which are too liberal. Revised terms and conditions for the royalty on bamboos, water charges and other forest concessions were offered to the Company as far back as August 1962, and they were called upon to accept them. But the Company has declied to accept the new terms and they are apposed to the revision of the terms of the old agreement.

Yours faithfully,

J.S. Ramaiya
(T.S. Ramaiya),
Under Secretary to Government,
Agriculture and Forest Department.

51/CF

Sir,

I am to invite a reference to your letter No. AFD 3 FFI 62 dated 9-4-64 on the subject cited above and to state as follows:

(i)Recovery of Royalty of Rs.9000/- for the quarter ending 31-3-59.

The actual quantity of bamboos extracted during 58-59 and the total amount realised on this account may be intimated to audit.

(ii) Payment of License fee by the Company:

As per Para 4(d) of the Government of Bombay Resolution, the Company was required to pay a license fee of Rs.101/- per annum. It may please be stated as to why this clause was not included in the agreement.

(iii) Recovery of Water charges:

It has been stated in Sub Para (iii) that the Company has not installed the Water meter to measure the quantity of Water utilised etc. Since the exact quantity of water utilised is not susceptible of proper assessment it has only to be supposed that the Company has been utilising the maximum extent of Rs.60 lakhs of gallons of Water per day and charge them accordingly. How exactly the charges are being levied may please be intimated furnishing the details thereof. A copy of Bombay Government Resolution No.FND 2856 3 dated 27-x-56

referred to in your letter under reference may also please be furnished.

An early reply in the matter is requested.

Yours faithfully,

Asstt. Accounts Officer.

--

The West Coast Paper Mills Limited have been paying, it is reported, the water charges on the quantity of 15 lakhs gallons of water per day at the sanctioned rate of Rs.1-00 per 10,000 cubic feet of water (60,000 gallons). As the Company did not fix up necessary water meters to its water drawing pump despite repeated notices, it was construed that the company was using water to the extent of 60 lakhs of gallons up to which limit the company can use water, as per clause 4(c) of the agreement executed by it on 13-8-1965, and accordingly the Divisional Forest Officer, Kanara Northern Division was directed by the Conservator of Forests, Belgaum to recover the water charges on 60 lakhs gallons of water per day. But, the company refused to pay the water charges on this quantity.

2. It has been pointed out earlier that the proper assessment of water consumed for the manufacture of paper by the Mills would be difficult in the absence of fixation of water metres. It was further pointed out in this office letter No. CI-23-602/BUD/RPR/PAE/64 dated 21-10-1964 while furnishing replies on draft paras in the Audit Report 1964, that the quantity of water consumed for the manufacture of paper could be correlated with the quantity of paer manufactured. Accordingly the Mysore Paper Mills Limited, Bhadravathi, were enquired in this behalf. The General Manager, The Mysore Paper Mills Limited, replied that the Water requirement of their expanded modernised bamboo Pulp plant for a production of 70 Tonns of bleached pulp per day has worked out at 180 thousand gallons per hour and that comes to nearly 60 thousand gallons per tonne of bleached pulp". This is the figure furnished, the General Manager says, by their suppliers of equipment and that this is found to be correct according to their own (Mills) calculations. The General Manager also furnished copies of extracts from the Books - "Water Technology in the Pulp and paper Industry" Toppi Monograph series No. 18 and Pulp and Paper Manufacture" volume 4 (MC Grahill Publications). Copies of these also are enclosed herewith for your perusal.

3. Regarding the other points raised by the Accountant General, I furnish below the relative information:-

a) Quantity of Bamboo extracted by the Company in 1958-59 is 38164 tonns. The price recoverable towards the bamboo consumed by the Mills for the manufacture of paper is on the basis of the air-dry pulp or paper manufactured i.e. Rs.3-13 per tonne of air-dry pulp manufactured during the year and it will not be on the basis of the quantity of bamboo extracted by the company. A quantity of 916.4 tonnes of air dry-paper Pulp was produced by the company (The Company stated production on 17-11-58 with foreign pulp of 500 tonnes. Government have said that no royalty is recoverably on the paper produced from this foreign pulp vide your No. AFD-26-FDP-59 dated 12-9-1959. A sum of Rs.9,000-00 has been paid towards royalty by the above Mills for the last quarter of 1958-59 ending with 31-3-1959 since the mills went into production on 17-11-1958 (minimum fixed per quarter in the agreement dated 13-8-1955) and the period of production has been fixed, by Govt, as 1-1-1959 G.O.

73
171

(b) A copy of the then Government of Bombay Resolution No. 3745, dated 17-11-1950 is herewith enclosed in duplicate for your ready reference. It may be seen therefrom that this Resolution did only mention the recovery of a lumpsum amount of Rs.101-00 per annum for the water consumed by the Mills for the Manufacture of paper Pulp (and it is not a license fee recoverable in addition to water charges) Para 4(a) and not 4(b) as observed by the Accountant General. The recovery of lumpsum water charges from the West Coast Paper Mills @ Rs.101-00 per year was later revised in Government of Bombay letter/ Resolutions No. FND-2855/29228(a)-J, dated 3-4-56, FND-2856-J dated 27-10-1956, wherefrom it may be seen that the recovery of water charges were finally fixed up @ Rs.1-00 per 10,000 Cft. for a period of 10 years with effect from the date the water is actually used for the manufacture of pulp and paper and Rs.2-00 per 10,000 Cft. thereafter. A copy of Government of Mbombay Resolution No. FND-2856-J, dated 27-10-56 is herewith enclosed in duplicate for your ready reference. Therefore the question of recovery of license fee (not provided for in the agreement ~~Government~~ executed by the West Coast Paper Mills with the then Government of Bombay) does not at all arise.

4. In view of what has been pointed out in para (2) supra, the recovery of water charges on the water consumed by the said Mills for the production of Paper or air-dry pulp, can be affected @ the rate of Rs.1-00 per 10000 Cft. or 60 thousand gallons of water for each tonne of paper/ air-dry pulp produced by the Mills. Orders of Government in this behalf are requested to enable the ~~Development~~ Department to proceed further to recover the arrear amounts due from the Company. This proceedure should be made operative until the company establishes necessary water meters.

Yours faithfully,

Chief Conservator of Forests.

Extract from "Paper and Pulp Manufacture" Vol.4, (Mc Grawhill) - page 617. 172

AMOUNT OF WATER REQUIRED:

60, Difficulty of determination:- No. two mills are alike with respect to their operation. A pulp mill may make only unbleached pulp, whereas other mills may bleach all or part of their pulp. Some paper mills are operated in connection with ~~m~~ pulp mills, while others purchase all or part of their pulp requirements. In many cases, mills are located on streams where there is an abundant water supply and it may, in such cases, with some truth be said that the stream is "shunted" through the mill. For these reasons, as well as because of the varying amount of returned water used, the amount of water used by pulp and paper mills varies over wide limits, making it difficult to give figures on the amount necessary for the different processes in these mills. Furthermore, in many mills ~~m~~ no records are kept of the amount of water used, and where no date are avai able water consumption is usually estimated from the capacity of the pumps, this representing the total requirements of the mill.

xx xx xx

Extract from "WATER TECHNOLOGY" in the Pulp and Paper Industry" - Tappi Monograph Series No.18. page 16 to 21.

Examination of the replies to the questionnaire discloses that the quantity of water used by the mills for the manufacture of pulp and paper and associated products varies from a minimum of 985 gallons per ton to a maximum of 198,00 gallons per ton of air-dried finished product shipped from t mill, or an arithmetical average of 54,000 gallons per ton for all classes of use. Water used for the generation of power has not been included in the above figures because more than half the mills buy all or part of their power from outside sources; thus the inclusion of water used for power generation would prevent a fair comparision:-

ALKALI PULP MILLS:- Tabels V and VI show the water consumption for alkali pulp mills on the basis of tons of pulp produced and tons of finished products produced respectivel

GOVERNMENT OF BOMBAY.

AGRICULTURE AND FORESTS DEPARTMENT.

Resolution No.3745.

Bombay Castle, 17th November 1950.

Read Government Resolution, Revenue Department, No.5800/45, dated the 6th June, 1949, appointing in Ad-Hoc Committee to examine schemes in connection with the establishment of Pulp and Paper Factory in Kanara District.

Letter No.3255-GEN/6686, dated the 17th October, 1949, from the Director of Industries, forwarding report of the Ad-Hoc Committee.

RESOLUTION:- With a view to establishing a factory in Kanara Forests for the manufacture of pulp and paper with bamboo as raw material, Government called for schemes from corporation of individuals interested in the Paper Industry, indicating the terms on which they would be prepared to establish pulp and paper factories. Four schemes were received. In june 1949, Government appointed an Ad-Hoc Committee to examine these schemes and the Committee submitted its report (printed as an accompaniment to this Resolution) to Government in September, 1949.

2. The Committee laid down certain basic principles and recommended, for the approval of Government, the scheme prepared by Shri M.G.Kotibhaskar and Shri A.D.Choudhari. Government is unable to subscribe to the share capital necessary for starting the factory, but is pleased to accept the Committee's recommendation regarding the scheme prepared by Shri Kotibhaskar and Shri Choudhari on behalf of the West Coast Paper Mills Limited (under floatation), and to issue the following orders regarding the various concessions, recommended by the Committee in that behalf, subject to the conditions set out in paragraph 3 below:-

P.T.O

(1) Land:-Land admeasuring 150 acres should be granted to the Company at such concessional rates as are ordinarily levied by Government for similar purposes.

(2) Reservation of bamboo areas:-Bamboo areas from the Forest ranges of Dandeli, Virnoli, Kulgi and Bhagwati should be reserved for the Company which should be allowed the concession to extract bamboos from these areas for a period of 30 years on the following conditions:-

(i) that the Company shall work these areas strictly in accordance with the prescriptions of the Working Plans and shall not extract more bamboos than the quantity laid down as sustained annual yield of the locality by the Working Plans Officer;

(ii) that such extraction shall not in any way prejudicially affect the privileges enjoyed by the local inhabitants under the Forest Privileges Code.

(3) New Plantation:-The Company should be given every facility to introduce new varieties or exotic varieties of bamboos in the reserved bamboo areas provided that the main timber crop in the said area is not adversely affected.

(4) Water:-Water from Kalinadi river should be given for the use of the factory on the following conditions:-

(a) Government shall grant to the Company licenc e and authority to draw water from the said river Kalinadi and to use the same for the purposes of the Company's factory for a term of fifty years commencing from the date of the agreement to be entered into by the Company, subject to the payment of an yearly licence fee of rupees one hundred and one (Rs.101), payable in advance, on or before the 15th January of each year.

(b) This will not imply any guarantee on the part of Government as to the availability of any specific quantity of water and Government shall not be responsible for the non-supply or inadequate supply of water.

(c) The water drawn by the Company from the said river Kalinadi shall be used for the purpose of the Company's said factory and shall not be sold to any person, firm or company, corporation

.....3

79 177

or other body and, in case of such sale, with prejudice to Government's right to revoke the licence, Government shall be entitled to recover from the Company the proceeds of such sale.

(d) Any quantity of water available after meeting the ~~xxxxxxx~~ reasonable requirements of the Company, which shall not exceed ten lakhs of gallons per day, will be available to Government for disposal at its entire discretion for agricultural, industrial or other purposes of use.

(e) The licence granted shall not in any manner prejudicially affect the existing water rights vested in the upstream riparian owners; nor shall it, in any way, prejudice Government' right to launch or implement any new scheme or schemes of its own in public interest hereafter at, on or in connection with the present source of channel of water supply available to the Company, subject however, to the safeguarding of its reasonable demand in respect of the quantum referred to in clause (d) above.

(f) The Company shall not build any dam or dams in the river bed of the said river Kalinadi unless the proposed plans, drawings, specifications, estimates and all details thereof are previously submitted to and approved by Government and, while granting its approval, Government may impose such conditions as it may in its discretion think fit.

(g) The Company shall give sufficient intimation to Government before it undertakes the blasting operations in the river bed and shall take all precautions and give sufficient notice to the public so that public safety is not in any manner endangered.

(h) The Company may, after submitting to Government the proposed plans, drawings, specifications and other details and after obtaining the approval of Government thereto, establish pumping stations on the banks of river Kalinadi, in strict accordance with the proposed plans, drawings, specifications and other details approved by Government.

(i) The Company shall be at liberty to discharge the trade

...

effuent from its factory into the river Kalinadi, provided, however, that if the Collector of Kanara finds that the arrangement of discharge is not suitable, he may direct the Company to extend the pipe line and the Company will extend the pipe line as directed by him. If the discharge of trade waste (which is not subjected to treatment) proves a source of nuisance to the users of the tidal river, the Company shall treat it suitably in the light of experience gained after the Company has started working.

(j) The Company will be entitled to lay underground and surface pipes drains and electric cables, through Government land and Government roads on the usual terms and conditions prescribed by Government for such purposes.

(5) Royalty:-Royalty should be charged at the rate of Rs.3 per ton of unbleached pulp and Rs.3-2-0 per ton of bleached pulp. This rate should be fixed initially for a period of five years and reviewed every ten years thereafter.

(6) Road and bridges in the forest areas:-The Company should be allowed free use of Government roads and bridges in the forest areas for the transport of material provided the Company allows Government the free use of roads and bridges that may be constructed and maintained by it.

(7) Timber:-The Company should be supplied with timber for building purposes at schedule rates.

(8) Stones:-The Company should be granted permission to quarry stones for building purposes at usual rates.

(3) The aforesaid concessions should, however, be granted to the Company on the following conditions:-

(i) that the location of the factory should be near the Dandeli Railway Station and the Kalinadi river;

(ii) that the Company should start a factory capable of producing 50 tons of pulp and 25 tons of paper per day, in the first instance, expansion to be carried out at a later stage with the growing needs of the country;

(iii) that the Company should set up its own power plant;

(iv) that the Company should procure the requisite machinery from the soft currency areas;

....5.

81 179

(v) that the Company should allot at least 5 per cent, of its total production of paper to Government and also 5 per cent, of its total production of pulp to the Cottage industry at the rates fixed by Government.

4) Shri Kotibhaskar and Shri Choudhari should be informed that Government is prepared to enter into an agreement, embodying the concessions and the conditions detailed above, provided the share-capital necessary to start the factory is collected within a period of one year from the date of this Resolution. They should also be informed that the offer of entering into an agreement with the Company shall be valid for a period of one year only and that, in the event of an agreement being entered into, the factory should go into p roduction within a period of five years from the date of signing the agreement, failing which the agreement shall be null and void after that period.

By Order of the Governor of Bombay,

D.N.MAHTA,
Secretary to Government.

Ref:-Your No.AFD-3-FFI-62 dated 17-4-1965.

- - - -

There is no indication either in the agreement executed by the Company or any resolution of the Government, as to who should instal the water metres at the Pamping Sets of Messrs west Coast Paper Mills and also as to who should maintain the Guage records etc.

2. As per Bombay Government Resolution No.FND-2856-J Dated 27-10-1956, the Mills will have to pay the water Charges at Rupee One per 10000 cft. for a period of ten years with effect from the date the water is actually used for the manufacture of Pulp and Paper and a rate of Rupees two per 10000 cft. of water consumed, thereafter. The Mills went into production from 17-11-1958.

3. A copy of letter No.D:W-8/2561 Dated 21-4-1958 of the Secretary to the Paper Mills Ltd. addressed to the Secretary to Government, Agriculture and Forest Department, Bangalore, copy ~~and endorsed~~ herewith, discloses that the company has prayed for the installation of a Meter both at the intake and the discharge points of an accurate assessment of water Charges is to be made, it is but incumbent on the Mills to have water meters fixed up ~~inks~~ in their interest but the proper maintenance of these should be by the Public Works Department (Water Supply). If they fail to instal the meters, the Mills should be directed to pay water Charges on the quantity of Paper manufactured at Rupee one per every ton of produced.

Yours faithfully,

Chief Conservator of Forests.

Through: The Chief Conservator of Forests,
Government of Mysore,
Bangalore.

Dear Sir:

Re: Water Rate - West Coast Paper Mills Ltd.

Kindly refer to our representation on the subject of the Water rate proposed to be charged to the West Coast Paper Mills, copy enclosed.

It will be seen that the final decision of the Government of Bombay was in flagrant disregard of the recommendation of the Ad-Hoc Committee, and its own resolution. We had very much hoped for an equitable consideration of our case.

If the principle of a nominal water rate of Rs.101/- per annum, as was originally envisaged, is to be departed from so lightly, then we would beg you to consider that in all fairness the charge should be levied on the water actually consumed. This would mean the installation of a Meter both at the intake and the discharge points.

An early decision in the matter would help us in channelling the water supply to the Mill.

Soliciting prompt attention, and thanking you in anticipation.

Yours faithfully,
For The West Coast Paper Mills Limited,

(sd. C.L. Maheshwari)
Secretary.

No.F.A.D.II/D/99

To

The Secretary to the Govt. of Mysore,
Agriculture and Forest Department,
Bangalore.

Sir,

Sub:- Transactions of M/s.West Coast Paper Mills Ltd.

I am to invite reference to Govt.'s letter No.AFD 3 FFI 62 dated 26-4-1965 on the subject indicated above and state as follows:-

(a) Water Charges:- The quantity of water consumed by the mills and the Housing Colony was put up at more than 150 lakhs gallons per day but according to clause 4(c) of the agreement, the mills could draw the maximum quantity of water of 60 lakhs per day. It is seen from No.A2(b)-58-1647/58-5/6-2-65 of the C.C.F. to Government that the company had refused to pay the water charges even on this quantity of 60 lakhs gallons a day. In view of the attitude adopted by the company the delay in the installation of the meter for recording the water consumed by the mill is not in the financial interest of the Government. On the other hand it may actually involve considerable loss of revenue to Government on this account. It is therefore pointed out that the early installation of the meter has become imperative in the circumstances stated above. Action taken in the matter may be intimated to audit. Reasons for the delay in the installation of the meter may also please be intimated to this office.

(b) I am also to request you to indicate the actual quantity of water on which charges are being recovered and the month upto which the charges have been recovered pointing out the extent of arrears still due from the mills.

3. Royalty:- (a) As per para 5 of Bombay Government resolution No.3745 dt.17th Nov.1950 Royalty on Pulp is also payable by the company. The Conservator of Forests, Belgaum Circle, Belgaum to the C.C.F. in Mysore, Bangalore in his letter No.16/5/III/269 dated 22-4-1959 (copy enclosed for reference) has stated that a minimum royalty of Rs.36000/- per annum is payable by the company irrespective of whether any paper is manufactured or not., and the company should have commenced production on or before 1-6-58. It may therefore please be stated whether this minimum royalty has been recovered from 1-6-58. The revision of the rate of royalty from Rs.3.13 to Rs.3.91 a ton vide G.O.No.AFD 78 FD 62 dt.28-3-61 does not dispense with the levy and collection of the minimum of royalty of Rs.36000/- a year. It may please be stated whether the collection of this minimum amount of royalty is enforced against the mills. The authority for not collecting this royalty on paper manufactured out of foreig pulp may be stated.

(b) It would appear that no royalty is being collected on paper manufactured from foreign pulp imported by company vide C.C.F.'s letter dt.15/6-2-65 to Govt.

4. Lease deed rent for land:- Under the preamble to the lease deed for 200 acres of land granted to the company a yearly rent of Rs.16000/- is payable in advance. Please state whether such rent is being regularly demanded and collected in advance from the company. If not it may please be stated whether any penal levy is being collected.

5. Annual licence fee:- The C.C.F. in his No.A2(b)-58-1647/58 dt.5/6-2-65 to the Govt. has described the lumpsum amount of Rs.101-00 per annum as water charges and not as licence fee. This is not correct in view of para 4(a) of the Govt. of Bombay resolution No.3745 dated

dated 17-11-1950, as this fee is towards the licence for drawing water. This fee may therefore be recovered for all the period for which it has been not recovered.

6. Early replies on the issues indicated above are requested.

Yours faithfully,

R. Ramaraju
15-6-65

Assistant Accounts Officer.

190 99

Letter No.16/5/III/269 dated 22nd April 1959 from the Conservator of Forests, Belgaum Circle, Belgaum to the Chief Conservator of Forests in Mysore, Bangalore-

-o-

Subject:- Payment of royalty by the West Coast paper Mills Ltd.Dandeli-
Reference:-Your No.A 2-b 58-1647/58 dated 4-4-1959 and 6-4-1959-

—o—

The Divisional Forest Officer, Kanara Northern Division has in his No.G/D/25/13920 dated 17/20-2-1950(copy enclosed) requested the West Coast Paper Mills Ltd., Dandeli to pay the minimum royalty of Rs.36000/- per condition No.1 of the agreement executed by the Mills. But the West Coast Paper Mills replied in their letter No.E dated 28-2-1959 (copy enclosed) that according to condition No.14 of the above said agreement the royalty would be paid from 1-2-1959 ie the date of production of pump from the bamboos extracted from their concessional area. The Divisional Forest Officer, Kanara Northern Division further in his No.G/25/14660 dated 7/8-3-1959(copy enclosed) clarified the matter to the Mills and requested them to pay the royalty immediately to which the Mills replied in their letter No.E dated 12-3-1959 (copy enclosed) upholding their previous decision.

2. The West Coast Paper Mills in importing foreign pulp ~~kkkkk~~ and manufacturing paper therefrom with effect from 17-11-1958 without obtaining previous permission or even without bringing it to the notice of Government, have created complications in the way of payment of royalty in the bamboos they had extracted from their concessional areas during 1958-59. Although there is nothing in the agreement to prevent the import of foreign pulp for manufacture of paper in the agreement yet there is no provision in the said agreement for allowing the mills to import the pump and manufacture paper therefrom without obtaining previous permission of Government. In fact they should have obtained previous permission of Government before ~~kkkkk~~ importing the foreign pulp and manufacturing paper therefrom Further the Divisional Forest Officer, Kanara Northern Division has in his letter No.C 25/62 dated 11-4-1959 reported that the West Coast Paper Mills did not intimate of their own accord the date of production of paper from 17-11-1959 but only when they were asked by the Divisional Forest Officer to pay the minimum royalty of Rs.36000/- for the year 1958-59 ~~but only when~~ that they informed the Divisional Forest Officer the date of production From this it appears that the intention of the Mills in importing the wood pulp and manufacturing paper therefrom without previous permission of Government was to perhaps to avoid the payment of royalty and making the matter complicated.

3. The West Coast paper mills have in their letter No.E dated 12-3-1959 referred to above, stated that according to condition 14(a) of the agreement the royalty would be paid after every quarter within a grace period of 30 days from the end of every three months, commencing from the date of production. Further they have said that the actual production of pulp from the Bamboos from their concessional area has been started by them only with effect from 1-2-1959 The above argument of the Mills cannot be accepted on the points mentioned below.

i) As per condition No.1 of the agreement, the Mills are required to pay the minimum royalty of Rs.36000/- per annum on the bamboos extracted by them from their concessional area from the date of production whether any pulp or paper is manufactured by the Mills or not. According to condition No.9(iii) of the agreement, the company should have commenced production of pulp and paper on or before 1-6-1958 No body prevented the company from producing the pulp or paper before 1-6-1958 and therefore the Divisional Forest Officer's action in asking the company to pay the minimum annual royalty of Rs.36000/- is not unjustified. Interpreting the term'on or before the 1st June 1958' in favour of the company, we may ask them to pay royalty for 10 months from 1-6-1958,to 31-3-1959 which works out to Rs.30000/-

ii) The condition No.14(a) of the Agreement only provides for the payment of royalty at the rate fixed on the production of the actual quantity of pulp or paper manufactured by the Mills and the adjustment of the same is to be done at the end of the financial year.

191

Thus if the Mills produce less than the prescribed quantity of pulp or paper, the royalty of which does not even cover the minimum royalty of Rs.36000/- per annum, the difference is to be paid by the Mills at the end of the Financial Year by adjusting the royalty which they have already paid at Rs.3-2-0 per ton of air dry pulp or paper.

(iii) Even if the date of production of pulp or paper from the bamboos extracted from their concessional area is taken as 1-2-1959, the minimum royalty payable by the Mills would be Rs.30000/- at the end of the Financial year.

4. Inview of the above facts, the Divisional Forest Officer, Kanara Northern Division is being instructed to issue a fresh demand Notice to the Mills for paying the minimum royalty of Rs.30000/- as worked out above and the re-action of the Mills will be reported to you in due course. In the mean time it may kindly be confirmed whether the royalty as worked out above is correct or otherwise.

5. Incidentally the paper mills might be under the impression that by paying the royalty to this Department without removing any bamboos they are doing a great favour to the Department, perhaps over looking the fact that this Department has entirely stopped issuing permits for bamboos in the concessional areas thereby losing revenue by thousands of rupees every year.

6. The contents of the letters dt.23-3-59 and 26-3-1959 from the West Coast Paper Mills Ltd., received under your above Nos. are the same as those of their letter dt.12-3-1959 referred to above a copy of which is enclosed herewith. The west coast paper Mills Ltd., may therefore be advised to pay the above Royalty as early as possible.

D.O.No. AA/R-IV/66-67/35 Office of the Accountant General,
Mysore, Bangalore
dated the 29th April, 1966

2.5.1966

T. Rengachari,
Accountant General.

Dear Shri Srinivasan,

I enclose a draft paragraph regarding 'loss of revenue on sale of water to West Coast Paper Mills, Dandeli' which is proposed for inclusion in the Audit Report 1967 of the Government of Mysore. The facts contained therein may please be verified and remarks of Government, if any, may kindly be communicated to my office through the Finance Department within six weeks as laid down in O.M.No.Fl(B)422-464/LFA/6-52 dated 16th April 1952 of the Government of Mysore. If no reply is received within that period, it will be presumed that Government have no remarks to offer.

This item was included in the para on 'Revenue receipts-Forest Department' proposed to be included in the Audit Report 1964- vide my office letter No. AA/Rep.I/10-60/63-64/252 dated 3-12-1963 forwarding a copy of the draft paragraph. However, as it was considered desirable to first obtain the remarks of Government on this item, it was excluded from the para included in the Audit Report 1964.

I may add in this connection that the matter was first taken up with Government by my office in 1962-vide letter No.FAD II/D/399 dated 5-1-1962. After issue of several reminders from my office to Government (and by Government to the Chief Conservator of Forests) the first reply was received in Government letter No. AFD 3 FF 162 dated 9-4-1964 and a further reply of an interim nature was received in letter No. AFD 3 FFI 62 dated 20-2-1965. Reply to a further reference (my office letter No. FAD II/D/99 dated 15-6-1965) is still awaited despite several reminders (including 4 demi-official letters addressed to you). The Conservator of Forests, Belgaum Circle has informed this office in February 1966 that he has submitted his report to the Chief Conservator of Forests, Bangalore who has apparently not finalise

his report so far.

You will agree with me that such inordinate delay in supplying information to my office would hamper our work and may also result in the inclusion in the Audit Report, of available material, though, I always feel, that it will be desirable to take into account the views of Government before finalising paragraph for the Audit Report.

I would be grateful if receipt of this letter and its enclosure, is kindly acknowledged and a reply issued early.

Yours sincerely,

T. Rangacha 30/4/66

(T. RENGACHARI)

Shri G.S.Srinivasan,
Secretary to the Government of Mysore,
Agriculture and Forest Department,
Vidhana Soudha, BANGALORE.

DRAFT PARAGRAPH FOR INCLUSION IN THE AUDIT REPORT ,1967

207 = 117

## Forest Department

Loss of revenue.- The West Coast Paper Mills, Dandeli have been permitted by Government to draw water up to 60 lakhs gallons per day from the Kalinadi river for industrial purposes subject to payment of water charges at the rate of Re. 1 per 60,000 gallons drawn by them.

The firm commenced production in 1958, but a meter to determine the actual intake of water has not yet been installed; the requirement was pointed out to the firm by the department as early as in 1959. In the absence of a meter, the firm have been paying water charges on the basis of an estimated daily consumption of 15 lakh gallons.

The department noticed in 1960 that the daily consumption of water by the firm was of the order of 150 lakhs gallons as against 15 lakhs gallon as originally estimated, and billed for. While reporting this to Government in December 1960, the Chief Conservator of Forests proposed that pending installation of a meter, water charges be recovered from the firm on the basis of the maximum quantity permitted to be drawn by them. On this basis, the amounts due from the firm was Rs.0.37 lakh per annum as against Rs.0.09 lakh being recovered from them. The firm have reportedly not agreed to this arrangement and have been making payments at the rates as originally assessed; the results of further action taken by the department in regard to the recovery of the dues from the firm and for the installation of a meter are awaited (April 1966).

Computed with reference to the consumption of 150 lakhs gallons of water as assessed by the department in 1960 the recurring loss of revenue is of the order of 0.82 lakh per annum.

Dear Shri Srinivasan,

Please refer to my D.O.letter NO.AA/R-4/192 dated 13-8-1965 regarding sale of R.A.Part II of Bedasagoan, Hostata of Kattur Range, wherein, I had requested that suitable instructions may be issued to the Chief Conservator of Forests to furnish the information required by my office. Apart from his letter NO. A2(a) CCP/123-328/3RA/63-64 dated 16-8-1965 furnishing an interim reply and also inquiring as to why this office wants a copy of the upset Price Statement, no further communication has been received from him despite reminders.

May I once again request you to issue necessary instructions to the Chief Conservator of Forests in the matter?

Another case which has been pending in my office for want of certain particulars relates to the grant of certain forest concession to the M/s. Greater Mysore Mayons Great Pulp and Papers Mills Limited. With reference to my office D.O.letter NO.FAD II/G/466 dated 9.1.1965 addressed to you, a reply has been received from your Deputy Secretary that the Chief Conservator of Forests was asked as far back as June 1963 to furnish clarifications and that his reply is not forthcoming despite several reminders. In this case also I would request that particulars required by my office may kindly be arranged to be furnished as early as possible.

I would also refer in this connection to my D.O.No.AA/Rep/IV/66-67/35 dated 29.4.1966 (Copy enclosed for ready reference) forwarding a draft para regarding "loss of revenue on sale of water to West Coast Paper Mills, Dandeli" proposed for inclusion in Audit Report, 1967. You will notice that the material proposed for comment was first referred to Government for remarks in December 1963 and that as the final reply has not been received sofar, I had to propose a draft para for the

CONFIDENTIAL.

216 135 21

Letter NO.D.O.AA/Rep.IV/66-67/35 dated 29.4.1966 from T.I Rengachari, Accountant General, Mysore.addressed to Shri S.S. Srinivasan, Secretary to Government of Mysore, Agriculture and Forest Department, Bangalore.1.

---

I enclose a draft paragraph regarding 'loss of revenue' on sale;of water to West Coast Paper Mills, Dandelli" which is proposed for inclusion in the Audit Report 1967 of the Government of Mysore. The facts contained therein may please be verified and remarks of Government if any, may kindly be communicated to my office through the Finance Department within six weeks as laid down in O.M.No.Fl(B)422-464/LFA/6-52 dated 16th April 1952 of the Government of Mysore. If no reply is received within that period, it will be presumed that Government have no remarks to offer.

same as p.45

This item was included in the para on "Revenue Receipts - Forest Dept" proposed to be included in the Audit Report 1964 - vide my office letter NO. AA/Rep/1/10-60/63-64/ 252 dated 3.12.1963 forwarding a copy of the draft paragraph. However, as it was considered desirable to first obtain the remarks of Government on this item, it was excluded from the para included in the Audit Report 1964.

I may add in this connection that the matter was first taken up with Government by my office in 1962 vide FAD II/D/399 dated 5.1.1962. After the issue of several reminders from my office to Government (and by Government to the Chief Conservator of Forests) the first reply was received in Government letter No. AFD 3 FF 162 dated 9.4.1964 and a further reply of an interim nature was received in letter NO. AFD 3 FF 162 dated 20-2-1965. Reply to a further reference (my office letter No. FAD II/D/99 dated 15.6.1965) is still awaited despite the issue of six reminders (including 4 demi-official letters addressed to you). The Conservator of Forests, Belgaum Circle, has informed this office in February 1966 that he has submitted his report to the Chief Conservator of Forests, Bangalore who has apparently not finalised his report so far.

Dated: 4 July 1966.

D.O.No.A2(B)58-1647/58

Dear

Sub:- Loss of Revenue on sale of water to M/s. West Coast Paper Mills Limited, Dandeli - Inclusion of - in the audit report 1967 of Draft Para - Report called for.

Ref:- D.O. letter No.AFD-21-FFI-66 dated 17-6-1966 of the Deputy Secretary to Government, Agriculture and Forest Department, Bangalore.

.....

The draft paragraph indicates that the Mills have been permitted to draw water from Kali river up to 60 lakhs gallons of water per day @ the rate of Rupee one per 60,000 gallons of water, that the Mills commenced production in 1958, that the Mills have not installed a water meter, that they have been paying water charges on the basis of the estimated daily consumption of 15 lakhs gallons, that though the Department indicated the recovery of water charges on the maximum quantity of water instead of on the quantity of 15 lakhs gallons per day, the Mills have not agreed to and that as a result the amounts due from the firm works out to Rs. 0.37 lakhs per annum instead of Rs.0.09 lakhs per annum. The Accountant General further adds that computing with reference to the consumption of 150 lakhs gallons of water as assessed by the Department in 1960, the recurring loss would be of the order of Rs. 0.82 lakhs per annum.

In this connection I invite your attention to this office letter of even No. dated 5-5-1965 and your letter No.AFD-3-FFI-62 dated 21-9-1965. I also invite your attention to letter No.Ci-12-SPP-60 dated 2-5-1961 copied to the Deputy Secretary to Government Agriculture and Forest Department, communicating the proceedings of the meeting held in the chambers of the Secretary to Government, Commerce and Industries Department, Bangalore on 22-4-1961, which was attended to by the then Deputy Secretary to Government, Agriculture and Forest Department, and add that it was then decided in consultation with the Public Works Department that the following rates should be recovered in respect of water charges from Industries like Rayon Pulp, Paper Chipboard etc.

(i) Rs.500/- per million cubic feet in respect of water drawn from irrigation sources which involved heavy cost to the State Government.

(ii) Rs.250/- per million cubic feet in respect of water drawn from natural sources.

(iii) Rs.100/- per million cubic feet in respect of water drawn from natural sources where impounding and lead of water to factory site involve substantial investment on the part of the concern.

It was also then decided that a rate of Rs.250/- should be levied per million cubic feet of water where water is drawn from natural/ and that a concession rate of Rupee 100 per million cubic feet should be charged, as an incentive to the industry after the Company starts drawing water (in respect of fresh industries) for the first five yea

sources

p.t.o.

Further meetings were held in the chambers of the Minister for Forests and the Chief Minister from 24-7-1962 to 28-7-1962 vide Government letter No. AFD-48-FDP-62 dated 18-8-1962. It may be seen therefrom that Government have informed the WestCoast Paper Mills Limited that the normal rate would be @ Rs.250/- per million (10,00,000)cubic feet of water drawn, that during the first five (5) years, a concession rate would be charged, that the water drawn would be calculated on the basis of the pumping capacity of the pumpsets installed in the factory premises, that, as Government recognise that there would a difference between the capacity indicated on the pumpsets and the water actually drawn by the pump, theGovernment would give a remission of 20% in the total amount payable to Government on the basis of the capacity of the pumpsets installed in the premisses of the Mill and that accordingly a remission of 20% would be given at the time of deciding the lumpsum amount payable by the Company to Government towards water charges. It may also be seen therefrom that Government wanted the Company to agree to the denovo revision of the agreement (executed by the Company on 13-8-1965) and the Company did not agree to it which is known to Government.

I even consulted the Mysore Paper Mills Limited, regarding the quantity of water consumed for the production of each tonne of paper Pulp and Paper. According to this, I am informed that this quantity would be nearly 60,000 gallons of water per tonne of beached pulp produced. This is why I even requested Government in my letter dated 6-2-1966 to issue necessary orders to recover the water charges taking into account the quantity of Paper Pulp Produced. The question as to who should instal the meter has also been examined with reference to the agreement subsisting and the Government of Bombay Resolution No. 3745 dated 17th November 1950. These two are silent on this issue. I feel it is right that the Forest Department should instal the meter and collect hire if necessary, as our Electricity Board and Water Supply Departments recover.

It is reported by the Conservator of Forests, Belgaum that water charges, at present, are being recovered from the Company on the quantity of 15 lakhs gallons i.e. Rs. 9125.00 per annum and the Company has paid these charges upto end of 16th November 1966.

I am afraid that this question cannot be finalised early, unless Government calls for an urgent meeting of the Company's Directors and make them agree to pay for the water charges on the quantity of water consumed for the production of one tonne of Paper Pulp, pending the installation of water meters. Otherwise this objection by the Accountant General is bound to be there.

Yours

ShriG.S.Srinivasan, I.A.S.,
Secretary to Government,
Agriculture and Forest Department,
B a n g a l o r e.

N O T E.

As per Bombay Government resolution No.3745 dated 17-11-1950 orders were passed on the report of the Committee appointed to study the question of setting up of a Paper and Pulp Factory by the West Coast Paper Mills Ltd., Dandeli in North Kanara District. In that resolution the Government of Bombay offered several concessions in respect of release of land, supply of bamboos and drawal of water from Kalinadi River for the industrial purposes. The Company which was to have started production as per the agreement ~~in~~ with the Govt. of Bombay on 1-6-1958, commenced production by utilising foreign ( Imported) Pulp on 17-11-1958. But the production of paper/pulp commenced at that factory with the utilisation of bamboos only on 1-11-1959. Among the various concessions offered to the Company by the then Bombay Govt., the question of drawal of water and its consumption for production of paper/~~by~~ pulp by W.C.P.Mills, however has been under the scrutiny of Audit since the entire area came under the jurisdiction of the New Mysore State. As per the agreement executed in 13-8-1955, the W.C.P.Mills are permitted to draw a minimum of 15 lakhs gallons of water per day - the maximum being not more than 60 lakhs gallons of water per day. The rate fixed for the drawal of water as per the Bombay Govt. Resolution No.FND 2856-J, dated 27th October 1956 is at Re.1/- per 10,000 cft. of water for a period of 10 years with effect from the date of the water was actually used for the manufacture of paper/pulp, and a rate of Rs.2/- per 10,000 cft thereafter.

It is seen in practice that the actual consumption of water by the W.C.P.Mills exceeded

P.T.O.

even the maximum of 60, ~~000~~ lakhs gallons of water allowed to be drawn by the Company per day. But the Company is paying the water rate only as fixed by the Bombay Govt. for the minimum of 15 lakhs gallons of water per day at the rate of Re.1/- per 10,000 cft. of water for 365 days. The fact that the W.C.P.Mills are drawing more than the quantity allowed for the industrial purposes has been amply proved by the brochure brought out by them at the time of the inauguration and also by the pamphlets issued by the Company in which it was given that the Company was drawing 150 lakhs gallons of water daily. This was brought to the notice of the Company by the Forest Department as far back as in 1959 and they were advised to install water meter to assess the intake of water drawn by them. However, it is seen, that the Company has been persistently refusing to install the meters or to be assessed for water for the maximum quantity allowed for them as per the agreement for one reason or other up till now.

Having considered this question in a meeting in the Chief Minister's Chambers on 24-7-1962 and 28-7-1962, the Government communicated the decision arrived at those meetings to assess the Company's requirements of water and also charge them at the normally accepted rates of drawing water from natural sources by offering certain concessions also, in Govt. letter No. AFD 48 FDP 62 dated 18th August 1962. The decision contemplated the following concessions:

(i) Rs. 250 per million cubic feet of water in respect of water drawn from natural sources ( ~~x~~ Kalinadi River), with the concession of rate of Rs. 100/- per million cubic feet for

the first five years as a measure of incentive to the Company.

(ii) A remission of 20% on the total amount payable to Govt. on the basis of capacity of the pumpset installed in the Factory.

This decision has neither been accepted by the Company nor has it been enforced so far.

With this in background the Govt. asked the C.C.F. to furnish to Govt. a suitable proposal for assessing the actual quantity of water drawn by the Company and also for fixing a suitable water rate etc., The C.C.F. has now reported that since the Company are refusing to install ~~the~~ meter for their pumpsets and also that both the Bombay Govt. Resolution No.3745 dated 17-11-1950 and the agreement executed by the West Coast Paper Mills are silent on the issue of installation of meter, the Forest Department may agree to instal the meter and collect the hire charges, if necessary from the Company on the lines adopted by the Electricity Board and Water Supply Department. Pending installation of meters, the C.C.F. has suggested that the Company may be charged for the water drawn by them for the industrial purposes on the basis of actual quantity of water used for ton of paper/pulp produced by them in their factory. As per the report of the C.C.F. the actual quantity of water used for a ton of paper/pulp produced at the Mysore Paper Mills, Bhadravathi is 60,000 gallons of water or 10,000 cft. The C.C.F. has stated that the W.C.P. Mills may therefore be charged at the rate of Re.1/- per 10,000 cft or 60,000 gallons of water for each ton of paper/pulp produced. This formal proposal of the C.C.F. substantially conforms to the rates fixed by the Bombay Govt. in

their Resolution No. FND 2856-J, dated 27th October 1956. also (Ref: letter No.A2(B)-58-1647/58 dated 5/6th February 1965). In the absence of the installation of meters, for assessing the actual consumption by the Co., the P.W.D. have also agreed to the proposal of co-relating the quantity of water consumed for the manufacture of pulp/paper with the quantity of paper/pulp manufactured. The F.D. has also agreed to this proposal subject to the condition that the body responsible for installation of meter for proper assessment of water drawn by the W.C.P.Mills, Dandeli, should be decided in the first instance. Now that the C.C.F. is willing to have the installation of meter by the Forest Department, the points for consideration are as follows:-

(i) Installation of Meter by the Forest Department and collection of hire charges etc from the Company.

(ii) Assessment of water consumption by the W.C.P.Mills, Ltd., Dandeli at the rate of Re.1/- per 10,000 cft. or 60,000 gallons of water per ton of paper/pulp produced by the Company, pending installation of meters and collection of arrears etc.,

The Director, W.C.P. Mills, Dandeli, North Kanara Dt., Mysore State.

Sir,

In pursuance of the discussions held in the Chambers of the Secy, D&F on 14-9-1966 on the above subject, I am directed to state that in the absence of the Water meters ~~furnished~~ for assessing correctly the quantity of water drawn by the W.C.P. Mills, Dandeli for the manufacture of Pulp/Paper etc, the Govt have proposed to levy the water rate as indicated below.

i) Re. 1/- per 10,000 cft on the basis of the actual production of Pulp/Paper in the mill at 60,000 gallons of water per ton of Paper/Pulp produced.

ii) The revised assessment will be effective from the actual commencement of production of Pulp/Paper in the Mill i.e. from 17-11-1958

iii) The assessment will be effective till the Water meter is installed to determine the actual quantity of water drawn at the Pumpsets.

I am directed to request you

ISSUED
Date 11/10/1966

Govt feel that there is no other alternative to arrive at the correct estimate of the water being used by the Co. than to assess it on the basis of the pulp produced in the factory. It is proposed to levy a charge of Re. 1/- for 10000 cft, assuming that one ton of pulp would require 60000 gallons of water

to furnish your ~~or the~~ opinion on the proposal
~~to file your objections, if any at the~~
~~earlier~~ within the ~~months~~ ~~time as~~ period promised by you.
at the meeting. If no reply is received by the
20th of October 66, it will be presumed that you
have no alternative to proposed and you have
no objection.

BRIEF NOTE ON THE DISCUSSIONS TO BE HELD IN THE CHAMBERS OF THE CHIEF MINISTER ON 3-6-1967 at 10.30 A.M.

1. Lease of Yellapur area

The West Coast paper mills, Dandeli, have represented to the Chief Minister for the allotment of the concessional areas of raw materials granted to Shri S.V. Viswanathan, Grater Mysore Rayon Grade Pulp and Paper Mills, Bangalore, for expansion their industry in Dandeli. It is submitted in this connection that the areas in the Yellapur Division allotted to the Greater Mysore Rayons have already been allocated to the West Coast Paper Mills, in G.O.No.AFD 111 FDP 63 dated 16-1-1967 for a period of one year for exploitation of bamboos, as the same have not been utilised by the G.M.R.G.P. & P Mills, Bangalore.

It may be pointed out in this connection that the question of withdrawing the forest concessions granted to Shri S.V. Viswanathan to set up the Rayon Pulp Industry in the State is separately under consideration in consultations with the Commerce and Industries Dept. and Law Department. In the meanwhile the Mysore State Industrial Investment and Development Corporation, Bangalore have also come forwarded with a request whether the concessions proposed to be withdrawn from the G.M.R.G.P.&P could be allotted to them for setting up their Rayon factory at Yellapur with the Japanese Collaboration. If the request of the W.C.T. mills Dandeli is for the continuance of the concessions granted to them already from the concessional areas of the G.M.R.G.P. & P, the same needs an examination of the entire issue in the light of the request, made by the Mysore State Industrial Investment and Development Corpostion.

253
189

2. Transactions of the Forest Department with the W.C.P. Mills, Dandeli:-

While considering the request of the W.C.P.Mills Dandeli for the allotment of the additional forest areas for exploitation, it may be worthwhile to take up the issue of finalising the question of fixation of water rates and installation of meter for assessing the water drawn by the company from the Kalinadhi River which is pending since many years. As per the agreement executed by the Company with thex then Bombay Government the W.C.P.Mills are to draw water from Kalinadhi river for their factory with a minimum of 15 lakhs gallons per day and a maximum of 60 lakhs gallons. However it is seen in practice that the company is drawing more than the maximum limit prescribed for them(it is estimated nearly 150 lkhs of gallons of water daily). and paying only for the minimum uptill now. Inspite of the several approaches made by Government the Company is persistently evading the issue of either to install the meter or to be assessed at a reasonable rate on the basis of the consumption of water per ton of paper/pulp produced in their factory, (which is estimated at 60,000 gallons per ton of paper/pulp produced in other factories) As the Accountant General has proposed a draft para on this issue and included the same in Audit Report 1967 the above question needs urgent solution on the following basis:-

1. Assessment of water consumption by the W.C.P.Mills Ltd., Dandeli at the rate of Re.1/- per 10,000 Cft, or 60,000 gallons of water perton of paper/pulp produced by the Company, pending installation of meters and collection of arrears etc.

254

191

2. Installation of Water Meter by Forest Department and collection of hire charges from the Company.

/ copy /

REVISED NOTE FOR AUDIT REPORT 1966-67 PARA 137

Pages 136 & 137 Loss of Revenue - Water Supply to M/s. West Coast Paper Mills Limited.

000000000000

It is true that the Mills commenced production during November, 1958 and began consuming water from River Kali therefor.

2. As per Bombay Government Resolution No.FND-2856-J dated 27-10-1956, water charges are to be recovered from M/s. West Coast Paper Mills Ltd., @ Rupee 1-00 per 10,000 Cft. or 60, 000 gallons of water for a period of ten years from the date water is actually used for the manufacture of Pulp and Paper and @ Rupee 2-00 per 10,000 Cft. or 60,000 gallons thereafter.

3. The Company has been paying the water charges on 15 lakhs gallons per day from 17-11-1958 and they have paid these charges up to end of 16-11-1966.

4. By virtue of the agreement the Company has entered into with the then Government of Bombay on 13-8-1955, it has the concession to draw water from River Kali. As per Clause 4, of the said agreement the Company is permitted to use water of Kali River for use of the Company's factory including housing colony of the Company's employees and purposes connected therewith. As per Clause 4(c), the maximum limit of water consumed should not exceed 60 lakhs gallons per day or 10,00,000 Cft. per day.

5. The Company has refused to pay the water charges at this maximum limit fixed i.e., Rs.100/- per day or Rs.36,500-00 per year, while actually it has been paying the charges at Rs. 9,125-00 per annum regularly. The Company has not installed water metres and it is supposed to draw water to the maximum extent i.e., 60 lakhs gallons per day. Correct recovery of water charges can only be assessed if water metres are set up by the Company. It is also said that water metres free from defects, are not available. Even here, during the discussions held at Government level in connection with the supply of water to this and other Industries, Government had come to the conclusion that the assessment of water consumed could be worked out on the basis of the capacity of pumpsets installed and that the charges could be fixed as under:-

Rs. 500-00 per 60,000 lakhs gallons (10,00,000 Cft.) of water in respect of water drawn from irrigation sources which involved heavy expenditure to the State Government.

Rs. 250-00 per 60,00000 gallons (10,00,000 Cft.) of water drawn in respect of water drawn from natural sources.

Rs. 100-00 per 60,00,000 gallons (10,00,000 Cft.) of water drawn from natural sources where impounding and lead of water to factory site involved substantial investment on the part of the concern.

It was also decided that a flat rate of Rs.250-00 per million cubic feet (60,00,000 gallons) of water where water is drawn from natural sources should be applied and a concessional rate of Rs.100-00 per million cubic feet (60,00,000 gallons)

.....2

should be charged as an incentive to the industry after the Company starts drawing water for the first five (5) years of establishment of the industry. Government is also aware that even these pumpsets would not give a correct assessment of water consumed, as there was bound to be a difference between the capacity indicated on the pumpsets and the actual quantity of water drawn by the pumpsets. In view of this Government also went to the extent of giving a 20% reduction, in the total amount payable by the Company towards water charges. All these, among other things, were indicated to M/s. West Coast Paper Mills Limited, by Government in their letter No.AFD-48-FDP-62 dated 18-8-1962. The Company has not agreed to this till date.

6. The question was again taken up by this office with the General Manager, Mysore Paper Mills, Limited, Bhadravathi, to find out the quantity of water consumed by it for the production of paper. The Mysore Paper Mills Ltd., intimated that the quantity of water consumed for the production of one tonne of bleached pulp would be 60,000 gallons or 10,000 Cft. The General Manager has also added that this is the figure furnished by their suppliers of equipment and that this is found to be correct according to their own (Mills) calculations. In order to avoid delay in the recovery of water charges on the quantity of water actually consumed, and to avoid audit objection, it was suggested by this office to Government on 5-2-1965 that, as the quantity of pulp produced is known, the water charges could be recovered at Rupee one per every x tonne of pulp produced. The matter came up for discussions on 14-9-1966 and 7-11-1966 at Government level with the Director of M/s. West Coast Paper Mills. In view of these discussions, Government in their letter No.AFD-3-FFI-62, dated 11-10-1966 addressed M/s. West Coast Paper Mills Ltd., to the effect that Government had proposed to recover the water charges at Rupee one per 10,000 Cft. (60,000 gallons) for every tonne of paper pulp produced and that, if the Mills do not reply ~~Government at the 20-10-1966 Government would presume that~~ the Mills have Government by 20-10-1966, Government would presume that the Mills have no objection for the levy of the water charges @ Rupee one per tonne of pulp produced. This office is not aware of the reply furnished to Government by the Mills.

Cyrore Government Secretariat,
Vidhana Soudha,
Dated, Bangalore 20th January 1967.

Subject: Transaction of the Forest Department with the West Coast Paper Mills, Dandeli - Discussions - Regarding -

The meeting to discuss the questions relating to the carriage of water rates and installation of water meters etc., pertaining to the West Coast Paper Mills, Dandeli has been arranged to be held on Saturday the 28th January 1967 at 10-30 A.M. in the Chambers of the Minister for Forests & Re ome, Vidhana Soudha, Bangalore. The following are requested kindly to make it convenient to attend the same:

1. The Secretary to Government, Agriculture & Forest Department.
2. The Secretary to Government, Finance Department.
3. The Secretary to Government, Public Works Department.
4. The Chief Conservator of Forests in Cyrore, Bangalore.

A brief note on the subject is enclosed herewith.

(T. [illegible]ston)

The Under Secretary to Government, A & F.D. (Forests).

## [illegible] DISCUSSION.

As per the agreement entered into by the West Coast Paper Mills, Dandeli with the then Government of Bombay, the Company is to draw water from the Kalinadi River for their factory at Dandeli with a minimum of 15 lakhs gallons and a maximum of 60 lakhs gallons per day. However it is seen in practice that the Company is drawing more than the maximum limit prescribed for them per day, (it is estimated roughly 1.0 lakhs gallons of water daily) and paying only for the minimum limit fixed for them per day at the rate of Rs.1/- per 10,000 Cft. of water for 365 days up till now. This was brought to the notice of the Company by the Forest Department as far back as in 1959 and they were advised to install the water meter to assess the intake of water drawn by them. However, it is observed that inspite of the several requests made to them, the Company is persistently evading the issue of either to install the meter or to be assessed at a reasonable rate on the basis of the consumption of water by the Company per ton of paper/pulp produced in their factory. The question now before the Government is to decide on the following:

1. Assessment of water drawn by the W.C.P.Mills, Dandeli at the rate of Rs1/- per 10,000 Cft, or 60,000 gallons of water per ton of paper/pulp produced by the Company pending installation of meter and collection of arrears etc. (As per the report of the C.C.F. the quantity of water consumed for the production of 1 tonne of paper pulp would be 60,000 gallons or 10,000 Cft of water on basis of the information received by him from the Mysore Paper Mills Ltd., Bhadravathi.)
2. Installation of Meter by the Forest Department and collection of hire charges etc. from the Company, to assess the actual consumption of water by the W.C.P.Mills, Dandeli.

Agreement executed by the Divisional of the West Coast Paper Mills with the Chief Conservator of Forests, Bombay State.

A/13-8-55

AGREEMENT FOR THE PULP AND PAPER FACTORY IN KANARA DISTRICT.

AN AGREEMENT made the thirteenth day of August One thousand nine hundred and fifty five between THE GOVERNOR OF BOMBAY exercising the executive Power of the Government of the State of Bombay hereinafter called 'the Government' (which expression shall unless the context does not so admit include his successors in office and assigns) of the first part.

SHREE A.D.CHAUDHARI and SHREE M.G. KOTIBHASKAR both of Bombay Indian Inhabitants hereinafter collectively called "The Confirming Parties"( which expression shall unless the context does not so admit include their heirs executors and administrators) of the second part and THE WEST COAST PAPER MILLS LTD., a Company incorporated under the Indian Companies Act,1913, and having its Registered Office at Shreeniwas House, Waudby Road,Bombay-1, hereinafter called "the Company" (which expression shall unless the context does not so admit include its successor or successors in business) of the third part.

WHEREAS being desirous of starting a Factory at Dandeli Kanara District, for the manufacture of pulp and paper, the confirming parties had applied to the Government for the grant of a concession for a period of thirty years for the extradtion of bamboos in the area mentioned hereinafter for the manufacturing of pulp and paper at the said factory which the Government agreed to do upon certain terms and conditions.

AND WHEREAS during the stage of negotiations of the said terms and conditions the confirming parties requested that the said concessions may be granted to the Company which the Government agreed to do.

AND WHEREAS before signing this agreement the company has Deposited with the Divisional Forest Officer, Kanara Northern Division (hereinafter called "Divisional Forest Officer") a sum of Rs.10,000/- (Rupees ten thousand) as security for the compliance with and the performance by the Company of all the terms and conditions in this agreement as far as they are to be observed and performed by the Company AND WHEREAS by a rule under Section 76 Clause (d) of the Indian Forest Act,1927 hereinafter called "the said Act", whoever enters into any contract with any forest Officer acting on behalf of the Government shall if so required by such Forest Officer bind himself by a written instrument to perform such contract

NOW IT IS HEREBY MUTUALLY AGREED AS FOLLOWS:-

2. The Company will have a concession for thirty years from the 26th day of May 1955, for the extraction of bamboos from the Forest areas specified hereinafter for being used only for the manufacture of pulp and paper at the said factory after carrying out necessary research and experiments to the satisfactor

the Chief Conservator of Forests, State of Bombay (hereinafter called "the Chief Conservator").

Subject nevertheless to the payment of royalty at a concession rate of Rs.3-2-0 per ton of paper manufactured at the Company's factory and to be charged at the first weighment stage for the first five years and thereafter at the revised rates to be sanctioned by the ~~Company~~ Govt. every ten years provided that any enhancement in the rate at each revision shall not exceed 25% of the basic rate of Rs.3-2-0 per ton of paper so manufactured at the Company's said factory and provided further that if any bleached or unbleached pulp manufactured at the said factory is removed therefrom or sold or otherwise disposed of by or on behalf or on account of the Company before conversion thereof into paper the Company shall pay to the Government before such removal, sale or disposal royalty at the rate of Rs.3-2-0 per ton of air-dry, bleached or unbleached pulp during the first ~~xx~~ five years and thereafter at the revised rates as aforesaid on the quantity so removed sold or disposed of provided that the Company shall pay the Government from the date of production referred to hereinafter a minimum royalty of Rs.36,000/- per annum whether any paper or pulp is manufactued at or removed from the said factory provided always that the Company shall be ~~x~~ permitted to remove subject to availability such quantity as may be required by the Company for its own manufacture of pulp and paper not exceeding in all 100 tons per day and that the extraction of the required quantity of bamboos shall be carried out in accordance with the programme prescribed by the Chief Conservator.

2. The concessions mentioned in clause 1 will be available from the High Forest Blocks I to IX and XX situated within the Forest Ranges of Virnoli, Kulgi, Dandeli and Sambrani including all unorganised areas of Dandeli Range included in Block VI subject to the following conditions :

(a) that the Company shall work these areas strictly in accordance with the prescriptions of the Working Plans and shall not extract more bamboos than quantity laid down as sustained annual yield of the locality which is estimated to be 1,00,000 tons per annum, and

(b)that such extraction shall not ~~x~~ in any way prejudicially affect the privileges enjoyed by the local inhabitants under the Forest Privileges Code and the right of Govt. to dispose of the surplus bamboos after making suitable provision for meeting ~~xx~~ the requirements of the Co. under clause (1) read with clause 14(b) hereof.

.....3/-

3. The Company will be permitted by the Chief Conservator introduce new or exotic varieties of bamboos and soft wood in the reserved bamboo areas provided that the main timber crop in the said areas is not ~~xxxxx~~adversely affected.

4. The Company will be permitted to use water of the Kalinadi River for the use of the Company's factory including housing colony of Company's employees and purposes connected therewith on the following conditions :-

(a) The Government shall grant to the Company licence authority to draw water from the said river Kalinadi and to use the same for the purpose of the Company's factory including housing colony of the Company's employees and purposes connected therewith for a term which shall be coterminous with the period of these presents subject to the payment of such fees or charges as may be prescribed by the Government and payable in advance on or before the 15th January of each year. The Government does not guarantee any specific quantity of water and the Government shall not be responsible for the non-supply or inadequate supply of water.

(b) The Water drawn by the Company from said river Kalinadi shall be used for the Company's said factory including housing colony of the Company's employees and the purposes connected therewith and shall not be sold to any person, firm or company, Corporation or other body and in case of such sale, without prejudice to the Government's right to revoke the licnee, Government shall be entitled to recover from the Company the proceeds of such sale.

(c) Subject to the provisions of the sub-clause (a) and (b) of the clause any quantity of water after meeting the resonable requirements of the Company, which requirements shall not exceed in any count sixty lakh gallons per day, will be available to the Government for disposal at its entire discretion for agricultural, industrial or other purposes or use.

(d) The licence to be granted under Sub-clause (a) of this clause shall not in any manner prejudicially affect the existing water rights vested in the upstream riparian owners; nor shall it, in any way, prejudice the Government's right to launch or implement any new Scheme or schemes of its own in public interest hereafter at, on or in connection with the present source or channel of water supply available to the Company, subject, however, to the safeguarding of its reasonable demand in respect of the quantum referred to in sub-clause(c) above.

....4/-

(e) The Company shall not build any dam or dams in the river bed of the said river Kalinadi unless the proposed plans, drawing specifications, estimates and all details thereof are previously submitted to and approved by the Government and, while granting its approval, the Government may impose such conditions as it may in its discretion think fit.

(f) The Company shall give sufficient intimation to the Government before it undertakes blasting operations in the river bed and shall take all precautions and give sufficient notice to the public so that public safety is not in any manner endangered.

(g) The Company, may after submitting to the Government the proposed plans, drawings, specifications, and other details and after obtaining the approval of the Government thereto, establish pumping stations on the banks of river Kalinadi in strict accordance with the proposed plans, drawings, specifications and other details approved by the Government.

(h) The Company shall be at liberty to discharge the trade effluent from its factory into the River Kalinadi, provided however, that if the Collector of Kanara finds that the agreement of discharge is not suitable, he may direct the Company to extent the pipe line and the Company will extend the pipe lines as directed by him. If the discharge of trade effluent (which is not subjected to treatment) proves a source of nuisance to the users of the tidal river, the Company shall treat it suitably to the satisfaction of the Government in the light of experience gained after the Company has started working.

(i) The Company shall be permitted to lay underground and surface pipes, drains and electric cables, railway sidings aerial ropeways, telephone lines etc., through the Government land and Government roads on terms and conditions prescribed by Government for the purposes.

5. The Government shall lease out to the Company 200 acres of land for a factory site and housing colony of the Company's employees and purposes connected therewith at such rent or on payment of appropriate occupancy price and annual assessment and for such period and on such terms and conditions including conditions providing for restriction on alienation as may be prescribed by the Government. Save for such trees as may be reserved for shade or other purposes, the whole area of 200 acres shall be cleared by the Forest Department, Government of Bombay, of tree growth within a reasonable time from the date of execution of the lease. During the currency of the lease the Company shall at its own cost keep the land clear of the coppice stools, lantana, brush wood and other growth.

(b) The Company shall keep a strip of 50 feet width on the road side and on the side abutting nallah and 100 feet in width on other side where the boundary adjoins reserved forests. This strip shall be kept clear of any inflammable material throughout the period of the lease so as to prevent fire from spreading into the adjoining forests. The Company will be at liberty to grow vegetables or crops on the said strip but shall not erect any structures or stone any material thereon.

(b) The boundary and other marks shall be kept in proper repair throughout the period of the lease.

6. The Company's carts or motor vehicles and other transport vehicles will be allowed to ply on all forest roads and brings in the forest areas for transport of material free of toll, subject to periodical closures and other traffic restrictions which the Divisional Forest Officer may from time to time prescribe to keep the road free from damage provided that such restriction or closure will affect not only the Company's vehicles but also all similar vehicles to whomsoever they belong. Reciprocally all roads constructed by the Company, except those running in the leased land shall be open for traffic of the Forest Department free of toll.

7. The Government shall supply the Company timber required for the construction of the Company's works at Scheduled rates if available for the purpose.

8. The Company shall be permitted to quarry stones and earth for its own factory and buildings or road construction purposes or to quarry earth from for bricks or tiles for its own factory or building purposes at current permit rates from sites agreed to by the Divisional Forest Officer.

9. The grant of the aforesaid concessions to the Company shall be subject to the following conditions :-

(i) the location of the factory shall be near the Dandeli Railway Station and the Kalinadi River.

(ii) the Company shall place order for purchase of the machinery necessary for the factory before the 31st December 1955 and shall see that the same are imported before 31st December 1957.

(iii) The erection of the factory and the installation of the machinery thereat shall be completed and the Company shall commence production of pulp and paper on or before the 1st June 1958.

(iv) that the Company shall start a factory capable of producing 60 tons of pulp and paper per day, in the first instance, extension to be carried out at a later stage with the growing needs of the country.

....6/-

(b) the Company shall the option to take part of the requirement of power from Jog-Karnatak Electric Grid and partly generate and set up its own power plant as may be found economical.

(vi) that the Company shall procure the requisite machinery from the soft currency areas as far as possible.

(vii) that the Company shall allot at least 5 per cent of its total production of paper to Government and also 5 per cent. of its total production of production of pulp to the cottage industry, if required, at the rates fixed by the Government which rates shall not be below its cost.

10. The Company shall have the licence and authority to its own ferry across the rivers in forest areas for the benefit, of its employees or for the transport of its goods and for such purposes shall heve access to the ferry terminal. The Company shall construct its own road and causeway across the river Kalinadi at the sites to be approved by the Chief Conservator ~~of~~for transport of bamboos and other raw materials before the company goes into production and until then the Company shall be permitted to use the forest road and its causeway.

11. The Company shall not employ any labour engaged in the Government Sawmill or working for the Forest Depar ment.

12. (a)The Company shall provide suitable housing accommodation and medical attendance to its employees.

(b) the Company shall make proper arrangements to provide clean drinkig water to its employees.

(c) The company shall pay wages to its employees at the scales not less than those prescribed by any legislation for the ~~time~~ time being in force.

13. The amount of royalty, rent or any other amount due under the agreement shall be paid to the Divisional Forest Officer on behalf of Government. If any whenever any part of the rent, royalty or any other amount due under this agreement shall be in arrears, the Company shall be liable to pay interest at 6¼% per annum from the due date to the date of payment and all sums due shall be recoverable from the Company in accordance with Section 83 of Said Act or as an arrear of land Revenue in accordance with the Section 82 and 85 of the said Act or in both ways. If the said rent or royalty due under this agreement hereby reserved shall be in arrear for the space of 30 days whether the same shall be legally demanded or not or if any other amount due under this agreement shall be in arrear for the space of 30 days after it shall have been legally demanded or whenever there shall be a breach of any of the covenants or conditions by the Company which shall not have been rectified within a reasonable time (as to which Government

....7/-

will be the sole judge) of their having been officially brought to the Company's notice, the Government will be at liberty to terminate this agreement and to forfeit the whole or any part of the deposit as it may in its absolute discretion think fit.

14. The Company shall -

(a) within 30 days from the end of every three months commencing from the date of production pay in the office of the Divisional Forest Officer or as may be otherwise required by him the full amount of royalty at the rates herein-before mentioned on the paper manufactured or pulp removed sold or otherwise disposed of before conversion thereof into paper as aforesaid during the preceding quarter subject to final adjustment at the end of each financial year.

(b) Before commencing felling operations in the exploitation area of the year send a representative with the Divl. Forest Officer to inspect the boundaries of the area as demarcated on the ground by the special or other marks and shall give such officer a writen certificate that it is satisfied with such marks and further shall sign the plan of the area under exploitation in acknowledgement that it delineates correctly the exploitation area as demarcated upon the ground.

(c) Submit from time to time to the Divisional Forest Officer the name, age and address of every person whom it may propose to employ in superintending its operation of the bamboos in the forest area and shall supply such person with a certificate of appointment which shall be countersigned by the Divisional Forest Officer but it shall not employ nor continue to employ any such person to w om the Divisional Forest Officer may object.

(d) When called upon to do so by any authorised Forest Officer take charge of and keep safely the book called "the Contractor's book , which it shall produce immediately on demand by such Forest Officer and shall return the same to such Forest Officer on expiry of the operations in the Forest each year. Any notice written by the authorised Forest Officer in this book shall be considered as a notice issued in confimity with this agreement.

(e) Not allow any bamboo to fall on roads., If during felling operations any bamboo falls on a road side it shall remove such bamboo immediately so as not to cause obstruction on the road in any way.

....8/-

(f) Take precautions, not to damage or kobstract the telegraph wire or posts during the currency of the contract.

Non-compliance with any of the aforesaid conditions in this agreement in respect of each and every particular tree and stool shall be deemed to be a distinct and separate breach for the purpose of the penalty clause.

15. The Company, its servants and agents shall abstain from the following acts, that is to say -

(a) from sub-letting this contract or any portion thereof to any person whatsoever without the previous permission in writing of Government.

(b) from continuing any operations in the concession area after expiry of termination of agreement;

(c) from removing any bamboo from the depot fixed or pointed out by the Divisional Forest Officer, (i) otherwise than under cover of a pass in accordance with the Bombay Forest Rules in force under section 41 of the said Act, issued by some person duly authorised under the said rules to sign and issue such pass, and with all the (information required by the said rules duly entered therein) or (ii) by any route or routes other than that or those approved by the Divisional Forest Officer. This condition does not apply to articles which it is permitted to manufacture under the terms of this agreement in transit from the factory area to the nearest Railway Station or sea port.

(d) from cutting or removing any tree from the factory site or the said depot without payment.

(e) from stacking or keeping any material at any place within the limits of the Forests other than the authorised depots for more than a week.

16. The Company agrees to perform the following conditions, that is to says-

(a) The Company shall defray all expenses which may be incurred in felling, converting and removing the bamboos to which this contract applies, including any compensation payable under the Workmen's Compensation Act, 1923(VIII of 1923,) to workmen employed by it ;

(b) In the event of the whole or any portion of this contract being subject with the written permission of the Government the Company shall be responsible for the acts and omissions of the sub-contractors and their servants as it they were the servants of the Company ;

....9/-

(c)The Company shall pay forthwith on demand to the Government the amount of xdamages which the Divisional Forest Officer may, by order in writing make on account of any injury caused to the forest produce belonging to Government within the area under working by illicit cuttings, by fire or by cattle grazing, if such cutting or fire is traceable to any act or omission of the Company, its servants or agents, or if such cattle belong to or have been allowed to graze by the Company, its servants or agents;

(d) The Company shall pay all such expenses as the Divisional Forest Officer may determine to be necessary for or to have been incurred in the execution of any work or think to be done, which by the conditions hereinbefore contain it has bound itself to perform or xx do any which on requisition made by the Divisional Forest Officer it has failed or omitted within the time specified in such requisition to perform or do.

17. Bamboo pulp removed from the factory and bamboos removed from the depot otherwise than in accordance with the conditions hereinbefore contained shall be liable to seizure by any Forest or police Officer and when so seized, shall be forfeited to Government.

18. (a) Bamboos remaining in the Depot aforesaid or anywhere within the limits of the forest, after the expiry of termination of this agreement shall be property of Government and may be removed from the said forest by the Divisional Forest Officer;

(b) The Company shall be liable to Government for the amount of all damage which at any time previous to the date of expiry or termination of this agreement or such earlier date as the Divisional Forest Officer, may, by order in writing, fix in this behalf, may be caused to any forest produce belonging to Government within the area under exploitation by illicit cuttings, by fire or by cattle grazing, if such cutting or fire is traceable to any act of omission of the Company its servants or agents, and if such cattle belong to or have been allowed to graze by the Company its servants or agents. Failure to pay the said amoun of damage as assessed by the Divisional Forest Officer shall make the Company liable to pay to Government a penalty of an amount up to Rs.1,000/- and the amount of damage along with xsuch penalty shall be recoverable from the Company under Section 85 of the said Act as if it were an arrear of land Revenue.

....10/-

(c) The Company shall pay all such expenses as the Divisional Forest Officer may determine to be necessary for, or to have been incurred in the execution of any work or thing to be done, which by the conditions hereinbefore contained it has bound itself to perform or do and which on requisition made by the Divisional Forest Officer it has failed or omitted within the time specified in such requisition to perform or do. Failure to pay the said expenses on demand by the Divisional Forest Officer shall make the company liable to pay to the Government a penalty of an amount up to Rs.1000/- and the amount of such expenses along with such penalty shall be recoverable from the Company under Section 85 of the said Act as if it were an arrear of land revenue.

19. If, in the opinion of the Divisional Forest Officer, the Company or any of its servants or agents has or have broken, evaded or failed to fulfil any of the conditions hereinbefore contained or infringed any provision of the forest law or rules for the time being in force, it shall be lawful for the said Divisional Forest Officer by a notice in writing to be served upon the Company to appropriate the Company's deposit or any part thereof (whether it may be in the form of Government promissory notes or postal cash certificates or currency notes or cash) or out of any other money of the Company in the possession of any Forest Officer or recover from the Company the amounts due and payable by the Company to the Government whether by way of penalty, ~~xxxx~~ damages or otherwise.

Provided always that nothing in this clause shall affect the liability of the Company, or any of its servants or agents to criminal prosecution for any offence committed by it or them against the laws or rules for the time being in force.

20. AND IN CONSIDERATION OF THE PREMISES the Government doth hereby agree with the Company that if it shall well and duly perform the contract it shall enjoy for and within the period and subject to the restrictions and conditions hereinbefore stipulated the privileges of extracting and receiving bamboos for the purpose of manufacture permitted under this agreement;

AND it is further hereby agreed between the parties that in this agreement -

(i) the term 'Divisional Forest Officer' shall be deemed to mean the Divisional Forest Officer or any Forest Officer authorised by him in writing to act in the matter of the xclause in which the said term is employed ,

.....11/-

(ii) the term 'Chief Conservator of Forests' shall be deemed to mean that Officer holding the said post for the time being.

21. AND it is hereby expressly agreed and declared that in consideration of the concessions hereby granted to it the Company hereby doth bind itself to perform every duty and act expressed in the terms, conditions and covenants hereinbefore contained as to be performed by the Company and doth hereby further covenant with the Government that the company, its servants and agents will abstain from every act expressed in the terms, conditions as to be abstained from ~~xxx~~ and doth hereby agree, in case of any breach of any of the said terms, conditions and covenants hereinbefore contained to pay to the Government through the Divisional Forest Officer on demand made in that behalf by him the sum of one hundred rupees for each such breach and that the said sum of one hundred rupees will, in accordace with Section 85 of the said Act, be recoverable from the Company as an arrear of land revenue without prejudice to any other remedy which the Government may have against the Company under the agreement in respect of the said breach.

Proceedings of the meeting held in the Chambers of the Minister for Forests and Revenue at 10-00 A.M. on the 29th February 1968 regarding West Coast Paper Mills - Levy of Water rates and installation of water meters etc.

Present:

1. Minister for Forests & Revenue.
2. Deputy Secretary to Govt. A & F.D.
3. Chief Conservator of Forests in Mysore, Bangalore.
4. Conservator of Forests, Belgaum Circle.
5. Welfare Officer, West Coast Paper Mills.
6. Under Secretary to Government, A&F.Department(Forests)

The Welfare Officer, West Coast Paper Mills pleaded that another day may be fixed for the meeting as the Director was unable to attend the meeting as he was not keeping well and submitted that any date subsequent to 11th March 1968 will suit the Director, West Coast Paper Mills.

The Minister for Forests & Revenue was pleased to direct that the meeting may be fixed on the 14th March 1968 and that this would be the final chance given to the West Coast Paper Mills and that the Director should positively attend the meeting on that day failing which a decision would be taken without him.

U.O.NOTE

Subject: Transaction of the Forest Department with the West Coast Paper Mills, Dandeli-Discussion regarding.

Reference: O.M.No.AFD 3 FFI-62, Dated 20-1-68.

---

It is understood that the West Coast Paper Mills, Dandeli, has not fixed any meter with the result that the exact quantity of water used by the firm is not being assessed. Payment is being made on the basis of minimum quantum prescribed in the Bomba; Resolution.

Agricultural and Forest Department is requested to arrange for immediate installation of the meters so that the quantity of water used could be assessed properly. The agreement ~~previously~~ entered into ~~with~~ with the firm for ten years ~~has~~ seems to ~~will~~ come to a close this year. The Agricultural and Forest Department may, therefore, take necessary action to see that the mills pay the rates fixed in the Government Order No.PWD 41 GMS 66, dated 13-3-67. for the future period.

R. & I. SECTION
A. & F. D.
No 11026
Date 30 MAR 1968
Section 1680/FA/68

U.O.NOTE

Subject;-Transactions of the Forest Department with the West Coast Paper Mills, Dandeli-Discussions Reg-

It is seen from the materials made available to Public Works Department that the West Coast Paper Mills, Dandeli, has entered into an agreement with the then Government of Bombay in Forest Department for supply of water to the Mills prior to Re-organisation of States. The contract subsists upto 1968. The agreement as such, does not provide any specific mention regarding the arrangment to be made for the supply of water or the specific authority for the granting of the license for drawing water. It is, therefore, the responsibility of the Forest Department (in the Successor State) to see that the Mills discharge their contractual obligation properly by taking immediate action in installing a water meter to know the correct daily consumption of water of the Mills to enable correct assessment of the water charges.

As regards previous consumption it may have to be assessed based on the theoritical assessment as already indicated and the charges may have to be recovered from the Dandeli Paper Mills.

S.P. 30/3

S.P. 30/3

In this connection A & F.Department is requested that in future any agreements covering water supply, revision of water rates, etc., will have to be entered into By P.W.D. The Agriculture & Forests Department is, therefore, requested to see that the P.W. authorities are also properly represented the matter regarding renewing the agreement

Proceedings of the meeting held in the Chambers of the Minister for Revenue & Forests on the 26th April 1968 at 11-30 A.M. in Vidhana Soudha, (AFD 3 FFL-62)

[Transactions of the Forest Deptt with the W.C.P. Mills, Dandeli]

Present:-

1. Minister for Revenue & Forests.
2. Secretary, A & F.D.
3. Secretary, P.W.D.
4. Secretary, Finance Department.
5. Chief Conservator of Forests.
6. Deputy Secretary, A & F.D.
7. Under Secretary, A & F.D.(Forests)

~~The Secretary, A & F.D. at the very outset~~ ~~placed before the Minister~~ the Telegram from Sri Maheshwari and Chhotubhai of the W.C.P.Mills, Dadheri (Lakhs) had been sent indicating their inability to attend the meeting and requesting for postponement of the discussions relating to the transactions of the Forest Department with the W.C.P. Mills, Dandeli. The Secretary, P.W.D. stated that in view of the absence of the representatives of the W.C.P.Mills almost every time, better to consider the question of installation of meter and assessment of water drawn by the Company from Kalinadi River, as the discusion and decision regarding the same can no ~~anylonger~~ longer be postponed. He pointed out that the Mills as per clause 4(a) and (c) of the agreement dated the 13th August 1965 are to draw water from the Kalinadi River not exceeding 60 lakhs gallons per day and to arrange payment of the same in advance on or before 15th January each year. As the Company had drawn more water then the permissible limit of 60 lakhs gallons per day as has been reported by the Forest Department which has put the figure at nearly 150 lakhs ~~xx~~ of gallons per day and ~~xare~~ paying only at the minimum of 15 lakhs of gallons, ~~are~~ liable for breach of contract and hence ~~are~~ bound to pay a sum of Rs. 100 for each such breach under clause 21 of the agreement, executed by them.

...2.

313
255

The C.C.F. then explained that the figure of 150 lakhs gallons given by the Forest Department was based on the brochure brought out by the Company themselves at the time of the inauguration and that the estimated production of pulping the Company may be now put at 100 tons, which as per the information furnished by the Mysore Paper Mills, will consume about 60 lakhs of gallons of water at the rate of 10,000 Cft or 60,000 gallons per ton of paper/pulp produced by the Company. The Secretary, P.W.D. then pointed out that even then the Company would be violating the terms of agreement executed by them and would be liable for the levy of penalty and should be proceeded against as such immediately. The Secretary, P.W.D. xxxxxxx indicated that an overall study of the agreement executed by the W.C.P.Mills, Dandeli, would reveal that the responsibilities for the fixing of water meter was that of the Company themselves and so must be asked to install the same immediately. The C.C.F. then told the meeting that the W.C.P.Mills were pleading their inability to secure meters for which the Secretary, P.W.D. suggested that it was not such a difficult thing to secure the meters as so many Companies were securing and installing them and that the Company should be positively told to install the same immediately.

The C.C.F. indicated that the W.C.P.Mills started their production on 17-11-1958 and it was decided that pending installation of meters by the Company, the arrears of water charges for the water drawn by the Company should be collected on the basis of the water consumed per ton of pulp/paper produced at the rate of 10,000 Cft., or 60,000 gallons of water from that date and also ~~at the rates fixed for the same by the erstwhile Government of Bombay.~~

3/4 257

The Minister for Revenue & Forests ~~then~~ observed ~~suggested~~ that in the circumstances the W.C.P.Mills should be asked to abide by the terms and conditionsm of the agreement in regard to concessions given to them for setting up of the Paper Mills and arrangem payment of:-

(1) whatever dues as per terms of the agreement relating to water charges from the date of commencement of the production i.e. became outstanding 17-11-68 upto-date pending installation of meter; and

(2) to install water meters within a period of 3 months for correctly assessing the water drawn by them from Kalinadi River failing which, the Company will be liable for payment of penalty etc.,

and the Notice by letter should be issued accordingly to the Company.

UN-OFFICIAL NOTE.

Subject:- Transaction of the Forest Department with the West Coast Paper Mills, Dandeli - Discussions - Regarding -

-: 0 :-

Dy. Secy. to A. & F. No. 436 22/5

The above subject was discussed in the Chambers of the Minister for Revenue and Forests when the Secretary to Government, Agriculture and Forest Department, Secretary to Government, Finance Department and the Chief Conservator of Forests were present.

2. During the discussion the Secretary, Public Works and Electricity Department has brought to the kind notice of the Minister about the provisions of the agreement entered into by the Company with the then Government of Bombay in August 1955 regarding utilisation of waters by the company from the Kalinadhi river - the maximum quantity being 60,000 gallons per day. The company was also informed, according to the terms of the agreement, to instal pumping stations on the banks of the river. The company was also required to provide metering arrangements so as to enable the authorities concerned to calculate the water charges payable by the company every month. The company has filed in the matter of installation of metering arrangements. The company has also not paid for the entire quantity of waters utilised in the manufacture of pulp. It appears it has paid only the minimum amount provided in the agreement. This is contrary to and violation of the provisions of the agreement. The Forest Department may take immediate suitable action in the matter of -

(1) recovery of arrears on the basis of the actual quantities of waters used. It will be calculated keeping in view the pulp production.

(2) the Company will be instructed to instal the metering arrangements within a reasonable time. The Company will also be apprised of the penalty clauses which will be revoked in the case of its failure to comply with the provisions of the agreement.

(3) According to Clause 4(a) of the agreemt the company has been authorised to draw waters from the Kalinadhi river subject to the payment of such fees or charges as may be prescribed by the Government and payable in advance on or before the 15th January of each year. The then Government of Bombay have, in their Resolution No. RND/2855/1122-J dated 23-1-1956 fixed the waters charges at Re 1/- per 10,000 cft. for a period of 10 years and Rs. 2/- per 10,000 cft. thereafter. These rates obviously be applicable as long as the agreement exists. According to Clause 4(a) read with

....2.

324367

read with Clause 2 of the agreement, the agreement period expires on 25th May 1985. It may not perhaps be possible to revise these rates before expiry of this period although according to the recent Government Orders issued in the matter of fixation of water rates for waters supplied to the Industrial concerns are quite high(copy enclosed). But care has to be taken to see that after the expiry of the agreement period, rate afor utilisation of waters by the company from the Kalinadhi river should be fixed in consultation with the Public Works Department and in accordance with the Government Orders issued on the subject.

~~Withxxxxxi~~ As at present all matters relating to supply of water or granting of ~~permixxx~~ permision to draw water from natural streams, rivers are being delat in P.W.D. Secretariat and orders ~~xx~~ issues with a view to have uni~~xxx~~form rates in respect of water supplied to Industrial and Commercial concerns in the State, a committee constituted for thepurpose have recommended that (i) in the case of water drawn direct from a river to canala, a rate of Rs.350/- per M.Cf. may be charged; (ii) in the case of water drawn from an irrigation reserveir or channel, a rate of Rs. 700/- per M.Cft. be levied. A copy of G.O.No.PWD 41 GMS 66 dated 13-3-1967 to this effect is enclosed herewith for information.

(M. CHANNAPPA)
DEPUTY SECRETARY TO GOVERNMENT,

# GOVERNMENT OF MYSORE

## PUBLIC WORKS DEPARTMENT.

**G. O. No. PWD 41 GMS 66, dated 13th March 1967.**

---

**The Levy of uniform water rate for making bulk supplies to Industrial and Commercial concerns**

Issues Orders *re* ——.

---

REFERENCE.—

1. Government Order No. PWD 104 GMS 65, dated 16th October 1965.
2. Government Order No. PWD 187 GMS 66, dated 4th June 1966.

PREAMBLE :—

With a view to have uniform rates in respect of water supplied to Industrial and Commercial concerns in the State, orders were issue in Government Order dated 16th October 1965 (first cited for the levy of Rs. 2000 per M. cft. in case, water was drawn from an Irrigation Reservoir or canal and a rate of Rs. 1,500 per M. cft. in case water was drawn direct from river or Nala.

Again with a view to afford facilities and assistance to new industries being taken up in the State, orders were issued in Government Order dated 4th June 1966 (second cited) waiving the levy of water rates or royalty for a period of five years in case of water lifted from natural sources by such industries which are to be started now.

A number of representations were received from various existing industrial concerns in the State that the water rates fixed in the Government Order dated 16th October 1965 were very high and that the factories will be put to financial strain if these rates are continued, with a view to afford facilities and assistance to the industries, the matter was referred to a committee of Secretaries to Government, Commerce and Industries Department, Public Works and Electricity Department, Finance Department, and the Director of Industries and Commerce, for re-examination of the water rates already fixed and to make recommendations in this behalf. Representatives from Industrial concerns were also invited for discussion by this Committee and the water rate levied in other States was also studied and the Committee in its meeting held on 14th October 1966, made the following recommendations:—

(i) For the water drawn direct from river or nala a rate of Rs. 350-per M.Cft may be charged.

(ii) For the water drawn from an irrigation reservior or channel a rate of Rs. 700 per M. Cft be charged.

The Committee was also of the view that in cases where expenditure has been incurred largely by Government for making bulk supplies to Industries, the rates would have to be negotiated with the firm by the Public Works Department separately and indvidual contracts entered into.

The Committee also recommended to give effect to the above rates from 16th October 1965 *i. e.*, the date from which the uniform rates were fixed previously.

ORDER THEREON No. PWD 41 GMS 66, DATED BANGALORE, THE 13TH MARCH 1967

After careful consideration and in supersession of the previous orders dated 16th October 1965 (first cited) Government are pleased to agree with the recommendations of the Committee and direct that

(i) in the case of water drawn direct from a river or nala, a rate of Rs. 350 (Rupees three hundred and fifty only) per M. C.ft. may be charged.

(ii) In the case of water drawn from an irrigation reservoir or channel, a rate of Rs. 700 (Rupees seven hundred only) per M. C.ft. be levied;

ORDER THEREON NO. PWD 41 GMS 66, DATED BANGALORE, THE 13TH MARCH 1967.

The above water rates may be made applicable with retrospective effect from 16th October 1965.

The Chief Engineers concerned will take steps to enforce this order in respect of all natural streams or Government owned channels or reservoirs from where water is drawn for industrial purposes.

This order issues with the concurrence of Finance Department *vide* their U. O. No. 19/1967, dated 6th February 1967.

By Order and in the name of the Governor of Mysore,

M. CHANNAPPA,

*Deputy Secretary to Government,*

Ref: Govt.letter No.AFD 48 FDP 62 dated 18th August 1962.

(ii) Govt.letter No.AFD 3 FFI 62 dated 11-10-1966.

(iii) Letter No.AFD 3 FFI 62 dated 20th April 1968.

---

You are aware that the question of assessing the actual quantum of water drawn by the West Coast Paper Mills, Dandeli from the Kalinadi River in terms of the agreement dated 13-8-1955 executed by the Company with th then Govt. of Bombay has been pending since over a decade. You are also be aware that insoite of the specific mention of the quantum of water to be drawn as per clause 4(c) of the agreement which put the figure at 60 lakhs gallons per day, the W.C.P.Mills have been drawing water more than the permissible limits as could be seen from the production of paper/pulp figures which are reproduced here below right from the inception of the Company:

| Year | Quantity of paper/pulp and or paper produced by the W.C.P.Mills. | Quantity of foreign pulp/imported pulp utilised by the Mill |
|---|---|---|
| 1 | 2 | 3 |
| 1958-59 i.e. from 17-11-58 to 31-3-59. | 605.534 long tons | 445.000 long tons. |
| 1959-60 | 17493.762 " | 1036.300 " |
| 1960-61 | 25042.312 " | 1738.624 " |
| 1961-62 | 24602.425 " | 1750.742 " |
| 1962-63 | 26637.947 " | 2362.608 " |

p.t.o.

| 1 | 2 | | 3 | |
|---|---|---|---|---|
| 1963-64 | 28788.292 | long tons | 669.830 | long tons |
| 1964-65 | 30098.590 | " | 527.982 | " |
| 1965-66 | 32774.510 | " | 317.986 | " |
| 1966-67 | 34880.510 | " | - | |
| 1967-68 | 34049.401 | " | 23.720 | " |

It is ascertained
Government understand that the water consumed per ton of pulp/paper in Mysore Paper Mills is 60,000 gallons or 10,000 Cft of water. ~~If this is taken~~ with this as the basis, what the Company is paying for 15 lakhs gallons of water per day presumably at the rate fixed in Govt. of Bombay Resolution No. FMD 2856-J, dated the 27th October, 1956 is definitely low and beyond all proportions to the quantity of water drawn by the West Coast Paper Mills all these years. Further, the same is in violation of the clause 4(a) and 4(c) of the agreement dated 13-8-1955 which definitely stipulate the payment for the actual drawal of water in advance on or before 15th January of each year and the requirements not exceeding 60 lakhs gallons per day.

p. 76 of flag (G)

amount due to Govt as per Rate has not been paid by the W.C.P Mills

flag (F)

In this background, Govt. put forward several practical formula for the correct assessment of water drawn by the West Coast Paper Mills, Dandeli vide Govt. letters cited first & second above. However, the W.C.P.Mills have not been able to appreciate the Govt. stand in the matter of assessing the actual quantum of water drawn by the Company, which has been definitely aimed at encouraging growing industry in W.C.P.Mills, even though it meant a considerable loss of revenue to Govt. all these years. The result of this approach of the Mills has been that the installation of meters either to assess the correct drawal of water or to evolve a formula for charging of water, on the basis of quantum of water consumed by the Company has not been feasible so far.

In the circumstances, Government had to decide

335 271

this question in a meeting held in the Chambers of the Minister for Revenue & Forests on the 26th of April 1968 in Vidhana Soudha. The W.C.P.Mills having expressed their inability to attend that meeting, Govt. were constrained to take the following decisions in regard to the installation of meters and of assessment of water drawn by the Company from the Kalinadi river which have been pending since many years. The decisions are as given below:-

pp 261-262 cf.

The W.C.P.Mills are strictly to abide by the terms and conditions of the agreement dated 13-8-1955 in regard to the concessions given to them for setting up of the Paper Mills in Dandeli and to arrange payment of:-

(a) whatever dues became outstanding as per terms of the agreement relating to water charges from the date of commencement of the production i.e., from 17-11-1958 upto-date pending installation of water meters by them.

(b) to install water meters within a period of 3 months from the date of receipt of this letter for correctly assessing the water drawn by them from the Kalinadi river.

The implications of the above decisions would mean:-

(a) that the W.C.P.Mills are required to pay the dues that became outstanding as per terms of the agreement pertaining to water charges as per quantum of water drawn which has exceeded the permissible limits of 60 lakhs gallons per day at the rate of 10,000 Cft of water or 60,000 gallons per ton of paper pulp produced by the Company from the date of production as indicated above and at the rates fixed by the Govt. of Bombay in their resolution No.FFD 2853-J, dated the 27th October,1956 up-to-

p. 76 cf - flag (e1) -

without fail and also

(b) to arrange installations of the water meters at their pumping stations within a period of 3 mo by the Company themselves as has been done by oth Companies in the State, who have been afforded wa facilities by the State Govt., for their industr

It is hoped that the W.C.P.Mills will appreciate the stan the State Govt. in regard to water concessions given to by the State Govt. for their paper mills at Dandeli and a payment of the dues immediately as per the decisions in above. The Govt. need hardly emphasise that failure to comply with the aforesaid requirements which are too lib compared to the rates charged to other industries, would

...p.t.o.

entail the revoking of the penalty clauses in regard to the breach of terms and conditions of the agreement dated 13-8-1955 executed by the Company, which stipulate the payment of a sum of Rs.100/- ~~xx~~ for each such breach under clause 21 of the agreement. Clause (F)

The receipt of this letter may kindly be acknowledged.

Yours faithfully,

10/6/68

Under Secretary to Govt.
A & F.D.

You are aware that the question of assessing the actual quantum of water drawn by the West Coast Paper Mills, Dandeli from the Kalinadi River in terms of the agreement dated 13-8-1955 executed by the Company with the then Govt. of Bombay has been pending since over a decade. You are also be aware that insoite of the specific mention of the quantum of water to be drawn as per clause 4(c) of the agreement which puts the figure at the maximum of 60 lakhs gallons per day, the W.C.P.Mills have been drawing water more than the permissible limits as could be seen from the production of paper/pulp figures which are reproduced here below right from the inception of the Company:-

| Year | Quantity of paper/pulp and or paper produced by the W.C.P.Mills. | Quantity of foreign pulp/imported pulp have been utilised by the Mills |
|---|---|---|
| 1 | 2 | 3 |
| 1958-59 ie from 17-11-58 to 31-3-59 | 605.534 long tons | 445.000 long tons |
| 1959-60 | 17493.762 " | 1036.300 " |
| 1960-61 | 25042.312 " | 1738.624 " |
| 1961-62 | 24602.425 " | 1750.742 " |
| 1962-63 | 26637.947 " | 2362.608 " |
| 1963-64 | 28788.292 " | 669.830 " |

...2.

336 283

| 1 | 2 | 3 |
|---|---|---|
| 1964-65 | 30098.590 long tons | 527.982 long tons |
| 1965-66 | 32774.510 " | 317.986 " |
| 1966-67 | 34880.510 " | - |
| 1967-68 | 34049.401 " | 23.720 " |

It is ascertained that the water consumed per ton of pulp/paper in Mysore Paper Mills is 60,000 gallons or 10,000cft of water. With this as the basis, what the Company is paying for 15 lakhs gallons of water per day presumably at the rate fixed in Govt. of Bombay Resolution No.FND 2856-J, dated the 27th October,1956 is definitely low and the amount due to Government as per that rate for the quantity of water drawn by the West Coast Paper Mills all these years, has not been paid by the West Coast Paper Mills. I am to add that this is in violation of the clause 4(a) and 4(c) of the agreement dated the 13th August 1955 which definitely stipulate, the payment of for the actual drawal of water in advance on or before 15th January of each year and the requirements not exceeding 60,00,000 gallons per day. In this connection, I am to state that in Govt.letter No.AFD 48 FDP 62 dated the 18th August 1962 among other things it was indicated as follows with regard to water charges:-

p 76 of | Para (3)

para (F)

pp 64-69 of | para (R)
L.F AFD 48 FDP 62

" The normal rate would be Rs.250/- per 10,00,000 cft. of water drawn. During the first five years , a concession rate of Rs.100/- per 10,00,000 cft. of water would be charged. The water drawn would be calculated on the basis of 300 days per annum and on the basis of the pumping capacity indicated on the pumpsets installed in the factory premises. Government recognize the fact that there would always be a difference between the capacity indicated on the pumpsets and the water actually drawn by the pumps. Government have decided that a remission of 20% in the total amount payable to Government on

...3.

337 985

the basis of the capacity of the pumpsets installed in the Mill's premises should ~~g~~ be given to the Company. Accordingly, a remission of 20% will be given at the time of deciding the lumpsum payable by your Company to Govt. towards water charges."

p.171 cf - flag (E)

Subsequently in Govt. letter cited second above wherein it was indicated a definite mode of assessment viz., that it is proposed to levy a charge of Re.1/- per 10,000 Cft assuming that one ton of pulp would require 60,000 gallons of water. No reply has been received from you in this regard.

In the absence of any arrangement made either to install the meter to assess the correct drawal of water or to evolve a formula for charging of water on some rational basis, it is not possible to realise the dues to the Govt consequent on consumption of water by the Company.

~~In the circumstances~~ further, I am to state that this question was considered in a meeting held in the Chambers of the Minister for Revenue & Forests on the 26th April 1968 and that the W.C.P.Mills had expressed their inability to attend the meeting. The following decisions were taken with regard to installation of meters and of assessment of water drawn by the Company from the Kalinadi river which have been pending since many years:

pp 261-262 cf
p.251

* flag (F)

The W.C.P.Mills are strictly to abide by the terms and conditions of the agreement dated 13-8-1955 in regard to the concessions given to them for setting up of the Paper Mills in Dandeli and to arrange payment of:-

(a) whatever dues became outstanding as per terms of the agreement relating to water charges from the date of commencement of the production i.e., from 17-11-1958 upto-date pending installation of water meters by them.

(b) to install water meters within a period of 3 months from the date of receipt of this letter for correctly assessing the water drawn by them from the Kalinadi River.

...4.

338 287

The implications of the above decisions would mean:-

(a) that the W.C.P.Mills are required to pay the dues that became outstanding as per terms of the agreement pertaining to water charges as per quantum of water drawn which has exceeded the permissible limit of 60 lakhs gallons per day at the rate of 10,000 Cft of water or 60,000 gallons per ton of paper pulp produced by the Company from the date of production as indicated above and at the rates fixed by the Govt. of Bombay in their resolution No.PWD 2856-J, dated the 27th October,1956 upto-date without fail and also

fo 76 of file (2)

(b) to arrange installations of the water meters at their pumping stations within a period of 3 months by the Company themselves as has been done by other Companies in the State, who have been afforded water facilities by the State Govt., for their industries.

I am, therefore, to request you kindly to arrange payment of the dues immediately as per the decisions indicated above. I am to state that failure to comply with the aforesaid requirements which are too liberal compared to the rates charged to the other industries, would entail the ~~revoking of~~ invoking the penalty clauses in regard to the breach of terms and conditions of the agreement dated the 13th August 1955 executed by the Company, which stipulate the payment of a sum of Rs. 100/- for each such breach under clause 21 of the agreement.

The receipt of this letter may kindly be acknowledged.

Yours faithfully,

Mysore Government Secretariat,
Agri. & Forest Department,
Bangalore, dated 10-10-1968

From

The Secretary to the Government of Mysore,
Agri. & Forest Department.

To

The Chief Conservator of Forests
in Mysore, Bangalore.

Sir,

Sub: Transactions of the Forest Department with the West Coast Paper Mills, Dandeli - Charging of water rates and installation of water meters - Instructions regarding.

Ref: Govt. letter No.AFD 5 FRI 62 dated 19-8-1968 and reminder dated 21-9-1968.

---

In inviting attention to the Government letters cited above, I am directed to request you kindly to furnish the information required by the Board sent to be forwarded from the West Coast Paper Mills, Dandeli in regard to the water drawn by the Company from the Kalinadi river on the basis of 10,000 Cft or 6,,000 gallons of water per ton of paper/pulp produced etc., called for therein immediately.

As regards the decision at the meeting held in the Chambers of the then Minister for Revenue and Forests held on 26-4-1968 pertaining to the installation of the water meters by the Mills within a period of 3 months is concerned, I am to state that it has now been held that in the absence of any provision in the agreement dated 15-3-1955 executed by the Mills, it would not be tenable for Government to insist that the Mills should instal the water meters etc. It is the responsibility of the State Government to fix up the meters in order to assess correctly the quantum of water drawn by the West Coast Paper Mills as also to restrict and charge the excess quantum of water, if drawn by the Company over and above the maximum limit of 60,00,000 gallons per day as specified in the agreement. The relevant extract of the legal opinion with regard to the installation of meters is given below:-

"The second demand in the notice relates to the Mills' installing water meters within a period of three months for correctly assessing the water drawn by them from Kalinadi river. The agreement dated 15-3-1955 does not provide for Mills installing the water meters. The unilateral decisions taken on 26-4-1968 is not binding on the Mills. As per clause 4(c) of the agreement, the Government is responsible to supply water upto 60 lakhs gallons per day as the maximum and the remaining water can be utilised by Government for other purposes. If the Government wants to restrict the water supply to the mills to the maximum mentioned in clause 4(c) of the agreement, it becomes the responsibility of the State to instal water meters. In other words, as the terms of the agreement stands, it would not be tenable for the Government to insist that the Mills should instal the water meters".

In the circumstances, I am to request you immediately to arrange for the installation of the Water Meter etc., and also to report the compliance of the same.

Yours faithfully,

Section

Dear Sir :

Re : Fixation of Water Charges.

D.F.O. (Cons.) Dandeli
No. 2200
8/4/69
B171 ey

This is to refer you to our letter No: L/WS-2 dated 16th October 1966 wherein we had communicated our acceptance of your proposal to charge us for the water we draw for our consumption from Kali River @ Re.1/- per ton of pulp produced by us, as communicated to us vide your letter No.N/AFD 3 FFI 62 dated 11 October 1966. We have not received the Government Order in this connection.

In this context, in the recent past, we have been approached by both the Forest Department as well as Public Health Engineering Department, asking us to furnish details for fixing a water meter at our River Pump House to ascertain the quantum of intake of water from Kali River. This step is not consistent with the spirit of the discussions we had in the meeting that was held on 14th September 1966 in your chamber, which was attended on our behalf by our Dr. JK Somani and Shri Chhotubhai Desai, as a result of which you had communicated your proposal to charge us at the rate of Re.1/- per ton of pulp produced by us vide your above mentioned letter. Under the circumstances, we are at a loss to know as to how the local Forest Department is now insisting on the installation of the water meter.

We shall, therefore, be obliged if you kindly examine this matter and issue suitable orders, fixing the water charges @ Re.1/- per ton of pulp produced, as already proposed by you and agreed to by us.

Soliciting the favour of your early orders,

We remain,

Yours faithfully,
FOR THE WEST COAST PAPER MILLS LIMITED.

CL Maheshwari
Secretary.
